3M™ PPS™ Series 2.0 Spray Cup System

# Part Number Reference Guide

## Better. To help make you better.

### Introducing the 3M™ PPS™ Series 2.0 Spray Cup System.

Reinvented from top to bottom, it's designed to help make your life easier. To make your painting process cleaner and faster. And to make you a better, more productive painter — more confident in the quality of your work and better able to exceed the expectations of your customers *and* your shop.

PN	Description	Items/Box	Boxes/Case	PPS™ 1.0 Legacy PN
<b>Lid and Liner Kits — 200 Micron Liner Cup System</b>				
Each kit contains: 50 lids and liners, 32 sealing plugs, 1 hard cup				
26024	Large (28oz, 850mL)	50	1	16024
26000	Standard (22oz, 650mL)	50	1	16000
26112	Midi (13.5oz, 400mL)	50	1	16112
26114	Mini (6.8oz, 200mL)	50	1	16114
26028	Micro (3oz, 90mL)	50	1	16028
<b>Lid and Liner Kits — 125 Micron Liner Cup System</b>				
Each kit contains: 50 lids and liners, 32 sealing plugs, 1 hard cup				
26325	Large (28oz, 850mL)	50	1	16324/ 16325
26301	Standard (22oz, 650mL)	50	1	16300/ 16301
26312	Midi (13.5oz, 400mL)	50	1	16312
26314	Mini (6.8oz, 200mL)	50	1	16314
26328	Micro (3oz, 90mL)	50	1	16328

**3M** Science.  
Applied to Life.™

3M™ PPS™ Series 2.0 Spray Cup System

**The next evolution  
of painting productivity.**

# Better. To help make you better.

As a painter, you take great pride in your work. You know that the ultimate quality of the repair depends on the job you do in the paint booth. You don't have time to fool around with unproven tools or discounted supplies. Time is money, quality is king and you've got vehicles to move out the door.

That's why 3M invented the first disposable paint cup system nearly 20 years ago—the 3M™ PPS™ Paint Preparation System. Painters needed a cleaner, faster, more efficient method of mixing and applying paint.

Now, after thousands of hours of watching and working with hundreds of painters around the world, 3M scientists have redesigned the 3M™ PPS™ System while keeping the most effective parts.

## Introducing the 3M™ PPS™ Series 2.0 Spray Cup System.

Reinvented from top to bottom, it's designed to help make your life easier. To make your painting process cleaner and faster. And to make you a better, more productive painter—more confident in the quality of your work and better able to exceed the expectations of your customers *and* your shop.

It's the next evolution of the 3M™ PPS™ painting revolution. Don't let anything come between you and a faster, cleaner, higher quality paint job. Demand 3M™ PPS™ Series 2.0.

The 3M logo, consisting of the letters '3M' in a bold, red, sans-serif font.The PPS logo, featuring the letters 'PPS' in a bold, black, sans-serif font. To the right of the letters is a stylized icon of a spray gun with paint being applied to a surface. Below the logo is the text 'Paint Application Solutions' in a smaller, black, sans-serif font.

PPS™  
Paint Application Solutions

## The 3M™ PPS™ Series 2.0 Spray Cup System

# Reinvented from connection to cup.

## Improved six ways.

Adopted by painters in every corner of the globe, the 3M™ PPS™ System has been a major boost to painting productivity and quality for nearly 20 years. Now 3M has made it even better in six critical areas, from top to bottom.

**3 Domed Lid with Full-Diameter Filter.** More paint below the filter improves flow and consistency, while reducing spitting from start to finish.

**4 New Cup in Every Lid & Liner Kit.** Start with a clean cup more often, reducing paint build-up. On-cup ratios and fill markings eliminate traditional mixing cups.

**5 Access Window.** Allows you to hold the liner for cleaner, easier lid removal when refilling. Also easier to check paint levels.

**6 Larger Cup Sealing Plug.** Allows you to seal and protect coatings upside down with greater stability when not in use. Use fewer lids by keeping filters wet.

**1 Wide Spout Adapter with Four-Point Connection.** Maximizes stability while spraying. Makes cleaning easier.

**2 Quarter-Turn Lid Locking System.** Comes with every lid. Stays cleaner. Locks faster. Fewer parts to keep track of.

# Cut your costs by picking the cup that fits the job.

Save money both on cups (smaller cups cost less) and paint (less chance of over-mixing) by always having a ready supply of a variety of 3M™ PPS™ Series 2.0 Kits.

Five sizes are available to fit the most common repairs in your shop. Stock them all to maximize your savings!

## Spot Repairs

### Micro Cups

Ideal for areas requiring 3 fluid ounces (90mL) or less of material. EPA 6H compliant.

## 1-Panel Repairs

### Mini Cups

Ideal for areas requiring 6.8 fluid ounces (200mL) or less of material.

## 2-Panel Repairs

### Midi Cups

Ideal for areas requiring 13.5 fluid ounces (400mL) or less of material, such as bumpers.

## 3-Panel Repairs

### Standard Cups

Ideal for areas requiring 22 fluid ounces (650mL) or less of material.

## 4-Panel Repairs

### Large Cups

Ideal for areas requiring 28 fluid ounces (850mL) or less of material, including large, clear coat batches.

## 6 Tips for Proper Disposal

1. It is recommended that immediate use containers containing chemicals are labeled, such as 3M™ PPS™ Cups.
2. Regulations apply to ALL chemical containers that have held hazardous materials, such as 3M™ PPS™ Lids and Liners, metal toner cans, mixing cups, 5-gallon containers, etc.
3. Dispose of water-based paints properly, as well. They may be hazardous. Check all coatings to determine if they are hazardous or considered acutely and/or extremely hazardous. Reference the paint/coating manufacturer's health and safety information. Check your local regulations.
4. Always empty out 3M™ PPS™ Liners and similar small containers into appropriate disposal receptacles before you place them in the garbage (see \* for definition of "California Empty").
5. **PRO TIP: For pourable hazardous material, allow your lids and liners to drip/dry\* into approved hazardous waste container prior to disposal.**
6. Any hazardous chemical containers that are NOT EMPTY must be disposed of as hazardous waste.

\*Drip/Dry: A container is "California Empty" when all pourable waste no longer pours when the container is inverted, and all non-pourable wastes are scraped or otherwise removed (defined by the California Department of Toxic Substances).

# 3M™ PPS™ Series 2.0 Spray Cup System

## Most Common Part Numbers and Ordering Information

Part No.	Description	Items/Kit	Kits/Case	Predecessor Part No.
<b>200 Micron Liner Cup System Kits</b>				
26024	Large (28oz, 850mL) Lids and Liners - 200 micron filter	50	1	16024

**\*Need a new 3M™ PPS™ Series 2.0 Adapter for your spray gun?**

## Pro Tips and Tricks

- Use the 3M™ PPS™ Series 2.0 Shaker Core to remove the lid more easily.
- When removing the lid and liner from the hard cup, twist lid to unlock, place fingers through hole in bottom of cup and push liner upwards, releasing lid and liner together.
- Use the wide base on your 3M™ PPS™ Series 2.0 Cup Sealing Plugs to stand your cups upside down when not in use, helping to keep the filter mesh wet.
- Eliminate traditional mixing cups and filters by mixing materials right inside your 3M™ PPS™ Series 2.0 Cups. Each lid contains a clean, welded-in filter.
- Stock all 5 Kit sizes to always have the right size cup for the job, reducing your cost per use.
- Maintain Compliance with EPA 6H Rule by using the 3oz/90mL size 3M™ PPS™ Series 2.0 Cups.
- Keep your red 3M™ PPS™ Dispensers. They still work with all 3M™ PPS™ Series 2.0 Lids and Liners.

# 8 simple steps to the perfect paint job.

**1** Insert a disposable liner in the cup.

**5** Choose the right adapter for your spray gun. Push down and twist until adapter locks into lid.

**2** Mix paint right inside the 3M™ PPS™ Series 2.0 Cup and Liner. (Note: Reduce material waste by not using a traditional mixing cup or pre-filtering.)

**6** When finished spraying, disconnect air line, invert gun and pull trigger to return excess paint to cup. Gently tap 3M™ PPS™ Series 2.0 Lid and Liner on a surface to help break surface tension of liquid and allow it to flow back into liner.

**3** Place lid on top of cup, align black portion of quarter-turn lid locking system with cup access window and push down. Twist to lock.

**7** Use the 3M™ PPS™ Series 2.0 Cup Sealing Plug to seal and protect coatings not in use, in accordance with local regulations or authorities. Be sure to see Pro Tips section for easy lid and liner removal from hard cup.

**4** Optional: Insert cup sealing plug into lid spout. Use the 3M™ PPS™ Series 2.0 Universal Shaker Core on top of any size cup and place into paint shaker. When paint is mixed, remove shaker core and sealing plug.

**8** Consult paint or solvent Safety Data Sheets (SDS) in addition to local regulations or authorities for safe use and proper disposal.

## Always Work Safe

Make sure you always wear proper protection in and around the paint booth. Here are three key products to help get you started:

**The 3M™ Dual Cartridge Respirator Assembly, Organic Vapor/P95**  
07191 small; 07192 medium; 07193 large

**3M™ Full Face-piece Reusable Respirator 6000 Series**  
6700 small; 6800 medium; 6900 large

**3M™ Belt-Mounted PAPR Painter's Kit GVP-PSK2/37335(AAD)**  
37355 one size fits all

3M Automotive Aftermarket Division  
3M™ PPS™ Paint Preparation System

# Improve Efficiency Reduce Waste

An innovative system for mixing and spraying both solvent based and waterborne materials:

## Enhance Quality

*Ability to spray 90 degrees to the panel  
Optimum Material Transfer*

## Optimize Efficiency

*Material Savings: optimum material  
transfer allows painters to use less*

## Reduce Solvents

*Minimize use of cleaning solvents, solvent  
exposure & solvent disposal waste*

## Maximize Productivity

*Faster System: mixing, spraying & disposal*

## Easy to Use

*Easy to mix, spray & cleanup  
- work smarter, not harder*

# Introducing the

## 3M™ PPS™ Paint Preparation System

*An innovative system from 3M that enables painters to mix less paint and drastically reduces the amount of solvent and technician time required for gun cleaning, improving operator efficiency by as much as 15%.*

**Innovation. Efficiency. Profitability. These are the values you've come to expect from 3M.**

3M delivers with the PPS™ Paint Preparation System. Make your job easier and save money with this innovative system that increases efficiency by eliminating the need for traditional mixing cups and paint strainers. Now, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter. Specifically designed adapters allow painters to use the PPS™ system with virtually any spray gun. A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down! Safe from outside contamination, the PPS™ system offers a cleaner, more efficient solution for all repairs from small spots to large surfaces. Enhance your quality, reduce solvents, minimize waste, maximize productivity and make your job easier with the revolutionary 3M™ PPS™ Paint Preparation System - now in a comprehensive range of size options allowing precise, accurate coverage.

### Spot Repair

Ideal for spot repairs that require 3 fluid ounces of material or less.

3M™ PPS™ Kit 3 fl oz Lids and Liners, 16028  
3 fl oz (90 mL) full diameter, 200 micron filters

3M™ PPS™ Kit 3 fl oz Lids and Liners, 16328  
3 fl oz (90 mL) full diameter,  
125 micron filters

### 1 Panel Repair

Ideal for small areas that require 6 fluid ounces of material or less.

3M™ PPS™ Kit Mini Size, PN 16114  
6 fl oz (180 mL) full diameter, 200 micron filters

3M™ PPS™ Kit Mini Size, PN 16314  
6 fl oz (180 mL) full diameter,  
125 micron filters

# 3M™ PPS™ Midi Size

You asked for a PPS™ Cup, Lid and Liner that are smaller than our Standard size, but larger than the Mini. 3M is excited to offer the new Midi PPS™ - giving you the most comprehensive range of PPS™ size options for precise, accurate coverage.

Now Available

## 2 Panel Repair

Ideal for areas that require 13.5 fluid ounces of material or less.

3M™ PPS™ Kit Midi Size, PN 16112, 13.5 fl oz (400 mL) full diameter, 200 micron filters

3M™ PPS™ Kit Midi Size, PN 16312, 13.5 fl oz (400 mL) full diameter, 125 micron filters

## 3 Panel Repair

Ideal for large areas that require 22 fluid ounces of material or less.

3M™ PPS™ Kit Standard Size, PN 16000  
22 fl oz (650 mL) 200 micron filters

3M™ PPS™ Kit Standard Size, PN 16301  
22 fl oz (650 mL) full diameter,  
125 micron filters

## 4 Panel Repair

Ideal for large jobs that require 28 fluid ounces of material or less.

3M™ PPS™ Kit Large Size, PN 16024  
28 fl oz (850 mL) 200 micron filters

3M™ PPS™ Kit Large Size, PN 16325  
28 fl oz (850 mL) full diameter,  
125 micron filters

## Key Benefits of Using the 3M™ PPS™ Paint Preparation System

- Only one PPS™ cup for mixing and spraying
- Enables painters to mix less paint
- Up to 70% savings of cleaning solvent
- Closed system - no outside contamination
- Faster system - from mixing to disposal
- Less operator exposure to solvents and reduction in VOCs
- Spray gun functions at any angle
- Available in 5 sizes: 3, 6, 13.5, 22, & 28 fl oz (90, 180, 400, 650 & 850 mL)

# Material Savings

**Eliminate the WASTE!**

Base Coat Example	Clean weight	Weight w/ residual mix	Amount of liquid waste	\$ Amount of liquid waste
Plastic mixing cup, Cone strainer, Plastic stir stick	47.6 grams	73.8 grams	26.2 grams = .9 oz.	\$390.40 / RTS Gallon = \$3.05 / RTS oz. = .9 oz. x \$3.05 = \$2.75

**Example Only, Results may vary**
