

An innovative system for mixing and spraying both solvent based and waterborne materials:

Enhance Quality

*Ability to spray 90 degrees to the panel
Optimum Material Transfer*

Optimize Efficiency

Material Savings: optimum material transfer allows painters to use less

Reduce Solvents

Minimize use of cleaning solvents, solvent exposure & solvent disposal waste

Maximize Productivity

Faster System: mixing, spraying & disposal

Easy to Use

*Easy to mix, spray & cleanup
- work smarter, not harder*

Introducing the 3

3M™ PPS™ Paint Preparation System

An innovative system from 3M that enables painters to mix less paint and drastically reduces the amount of solvent and technician time required for gun cleaning, improving operator efficiency by as much as 15%.

Innovation. Efficiency. Profitability. These are the values you've come to expect from 3M.

3M delivers with the PPS™ Paint Preparation System. Make your job easier and save money with this innovative system that increases efficiency by eliminating the need for traditional mixing cups and paint strainers. Now, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter. Specifically designed adapters allow painters to use the PPS™ system with virtually any spray gun. A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down! Safe from outside contamination, the PPS™ system offers a cleaner, more efficient solution for all repairs from small spots to large surfaces. Enhance your quality, reduce solvents, minimize waste, maximize productivity and make your job easier with the revolutionary 3M™ PPS™ Paint Preparation System - now in a comprehensive range of size options allowing precise, accurate coverage.

Spot Repair

Ideal for spot repairs that require 90ml of material or less.

3M™ PPS™ Kit 3 fl oz Lids and Liners, 16028
90ml full diameter, 200 micron filters

3M™ PPS™ Kit 3 fl oz Lids and Liners, 16328
90ml full diameter, 125 micron filters

1 Panel Repair

Ideal for small areas that require 180ml of material or less.

3M™ PPS™ Kit Mini Size, PN 16114
180ml full diameter, 200 micron filters

3M™ PPS™ Kit Mini Size, PN 16314
180ml full diameter, 125 micron filters

3M™ PPS™ Midi Size

You asked for a PPS™ Cup, Lid and Liner that are smaller than our Standard size, but larger than the Mini. 3M is excited to offer the new Midi PPS™ - giving you the most comprehensive range of PPS™ size options for precise, accurate coverage.

2 Panel Repair

Ideal for areas that require 400ml of material or less.

3M™ PPS™ Kit Midi Size, PN 16112,
400ml full diameter, 200 micron filters

3M™ PPS™ Kit Midi Size, PN 16312,
400ml full diameter, 125 micron filters

3 Panel Repair

Ideal for large areas that require 650ml of material or less.

3M™ PPS™ Kit Standard Size, PN 16000
650ml 200 micron filters

3M™ PPS™ Kit Standard Size, PN 16301
650ml full diameter, 125 micron filters

4 Panel Repair

Ideal for large jobs that require 850ml of material or less.

3M™ PPS™ Kit Large Size, PN 16024
850ml 200 micron filters

3M™ PPS™ Kit Large Size, PN 16325
850ml full diameter, 125 micron filters

Part No.	Description	Items/Box	Boxes/Case
200 Micron Lids & Liners			
16024	Large Lids and Liners w/200 micron filters	25	1
16000	Standard Lids and Liners w/200 micron filters	50	1
16112	Midi Lids and Liners w/Full Diameter 200 micron filters	50	1
16114	Mini Lids and Liners w/Full Diameter 200 micron filters	50	1

16019	Large / Standard / Midi Liner Dispenser	1	1

Key Benefits of Using the 3M™ PPS™ Paint Preparation System

- Only one PPS™ cup for mixing and spraying
- Enables painters to mix less paint
- Up to 70% savings of cleaning solvent
- Closed system - no outside contamination
- Faster system - from mixing to disposal
- Less operator exposure to solvents and reduction in VOCs
- Spray gun functions at any angle
- Available in 5 sizes: 90, 180, 400, 650 & 850 ml

Get The Right Adapter

3M™ PPS™ Paint Preparation System

An innovative system from 3M that gives painters an all-in-one disposable solution for mixing, filtering, spraying and temporary storage!

- Spray at ANY angle, even upside down!
- Spray at 90 degrees to the part, reducing overspray waste and improving quality.
- Reduce cleaning solvent consumption by as much as 70%
- Eliminate costly paint/coating waste left on mixing cups and cone filters

Save time and money by trying 3M™ PPS™ System on your spray equipment today!

For complete listing on all 45 Adapters that fit most common Spray Gun equipment please visit www.3MCollision.com or call 1-877-666-2277.

3M™ PPS™ System Can Be Used On Most Spray Guns!

3M Science.
Applied to Life.™

Perfect Utility, Ultimate Versatility.

It's not metal, but it sure acts like it.

Our mission is to **take the pain OUT** of painting — that means cleaning and maintenance — and it's got to be done **without sacrificing performance.**

We added extra atomizing air holes to the new 1.2 mm and 1.3 mm atomizing heads to ensure you're getting the premium performance you expect out of your metal guns, while making cleaning quick and easy with see through atomizing heads.

With five sizes of atomizing heads, make Accuspray™ ONE Spray Gun your ultimate utility gun and *the perfect complement to your collection.*

Built for Bumpers

With the new 1.2 mm and 1.3 mm atomizing heads, you can go from start to finish on bumpers: primer, sealer, basecoat and clearcoat.

Shoot 'N' Share

New prepper, helper or painter in the shop? The utility gun you can feel confident sharing, no matter the application. New head = new gun.

Small Parts Made Simple

Every job, no matter the size, means cleaning. Make the small ones quick and painless with see-through, replaceable atomizing heads.

ONE Gun = ONE Trip Into the Paint Booth

Multiple parts in the booth? With five sizes to choose from, go from primer-to-clear and never leave the booth! Choose the preferred size for your application, or follow paint company spray gun setup recommendations.

3M™ Accuspray™ ONE Spray Gun Kit

This all-in-ONE kit includes:

- Polished 3M™ Accuspray™ ONE Spray Gun
- One each: 1.2 mm, 1.3 mm, 1.4 mm, 1.8 mm, 2.0 mm atomizing heads
- Air control valve
- Coloured identification clips
- Gun hanger

3M™ PPS™ Paint Preparation System

Improve Efficiency Reduce Waste

An innovative system for mixing and spraying both solvent based and waterborne materials:

Enhance Quality

*Ability to spray 90 degrees to the panel
Optimum Material Transfer*

Optimize Efficiency

*Material Savings: optimum material
transfer allows painters to use less*

Reduce Solvents

*Minimize use of cleaning solvents, solvent
exposure & solvent disposal waste*

Maximize Productivity

Faster System: mixing, spraying & disposal

Easy to Use

*Easy to mix, spray & cleanup
- work smarter, not harder*

Introducing the

Get the latest 3M™ PPS™ news now on your smartphone.

3M™ PPS™ Paint Preparation System

An innovative system from 3M that enables painters to mix less paint and drastically reduces the amount of solvent and technician time required for gun cleaning, improving operator efficiency by as much as 15%.

Innovation. Efficiency. Profitability. These are the values you've come to expect from 3M.

3M delivers with the PPS™ Paint Preparation System. Make your job easier and save money with this innovative system that increases efficiency by eliminating the need for traditional mixing cups and paint strainers. Now, paint is mixed and sprayed out of the same PPS™ liner with a lid and built-in filter. Specifically designed adapters allow painters to use the PPS™ system with virtually any spray gun. A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down! Safe from outside contamination, the PPS™ system offers a cleaner, more efficient solution for all repairs from small spots to large surfaces. Enhance your quality, reduce solvents, minimize waste, maximize productivity and make your job easier with the revolutionary 3M™ PPS™ Paint Preparation System - now in a comprehensive range of size options allowing precise, accurate coverage.

Spot Repair

Ideal for spot repairs that require 3 fluid ounces of material or less.

3M™ PPS™ Kit 3 fl oz Lids and Liners, 16028
3 fl oz (90 mL) full diameter, 200 micron filters

3M™ PPS™ Kit 3 fl oz Lids and Liners, 16328
3 fl oz (90 mL) full diameter,
125 micron filters

1 Panel Repair

Ideal for small areas that require 6 fluid ounces of material or less.

3M™ PPS™ Kit Mini Size, PN 16114
6 fl oz (180 mL) full diameter, 200 micron filters

3M™ PPS™ Kit Mini Size, PN 16314
6 fl oz (180 mL) full diameter,
125 micron filters

3M™ PPS™ Midi Size

You asked for a PPS™ Cup, Lid and Liner that are smaller than our Standard size, but larger than the Mini. 3M is excited to offer the new Midi PPS™ - giving you the most comprehensive range of PPS™ size options for precise, accurate coverage.

Now Available

2 Panel Repair

Ideal for areas that require 13.5 fluid ounces of material or less.

3M™ PPS™ Kit Midi Size, PN 16112, 13.5 fl oz (400 mL) full diameter, 200 micron filters

3M™ PPS™ Kit Midi Size, PN 16312, 13.5 fl oz (400 mL) full diameter, 125 micron filters

3 Panel Repair

Ideal for large areas that require 22 fluid ounces of material or less.

3M™ PPS™ Kit Standard Size, PN 16000
22 fl oz (650 mL) 200 micron filters

3M™ PPS™ Kit Standard Size, PN 16301
22 fl oz (650 mL) full diameter,
125 micron filters

4 Panel Repair

Ideal for large jobs that require 28 fluid ounces of material or less.

3M™ PPS™ Kit Large Size, PN 16024
28 fl oz (850 mL) 200 micron filters

3M™ PPS™ Kit Large Size, PN 16325
28 fl oz (850 mL) full diameter,
125 micron filters

Key Benefits of Using the 3M™ PPS™ Paint Preparation System

- Only one PPS™ cup for mixing and spraying
- Enables painters to mix less paint
- Up to 70% savings of cleaning solvent
- Closed system - no outside contamination
- Faster system - from mixing to disposal
- Less operator exposure to solvents and reduction in VOCs
- Spray gun functions at any angle
- Available in 5 sizes: 3, 6, 13.5, 22, & 28 fl oz (90, 180, 400, 650 & 850 mL)
