

Details

- Abrasive sheets for shaping filler, removing paint and refining scratches
- Versatile sheets for a variety of automotive surface materials
- Ceramic aluminum oxide mineral blend delivers a fast cut rate
- Heavy-weight E backing adds durability
- Pressure sensitive adhesive for quick and easy disc changes

3M™ Stikit™ Green Corps™ Abrasive Sheet 251U shapes plastic filler and strips paint to bare metal. Green Corps™ abrasives are built on E weight backing to make them extremely durable for sanding paint, metal or fiberglass. Abrasive sheets feature an anti-loading stearate coating. Ceramic aluminum oxide mineral blend delivers a fast cut and long life.

Abrasive Sheets for a Variety of Surfaces

3M™ Stikit™ Green Corps™ Abrasive Sheet 251U excels at filler shaping, metal shaping, paint removal and rust removal on automotive bodies. Green Corps™ products are made with a blend of abrasives including 3M's high performance ceramic abrasive grain, which provides increased abrasive life and a faster cut rate. Use these sheets on the following surfaces: clear coats, fiberglass, filler, metal, paint and plastic. Open coat construction reduces loading on fresh filler. Use these sheets for dry sanding applications.

Heavy-weight E Backing Adds Durability

Green Corps™ abrasives are built on E-weight backing to make them extremely durable for sanding paint, metal or fiberglass.

High performance ceramic abrasive grain provides increased abrasive life and faster cut rate

Pressure sensitive adhesive coating for easy attaching and removal

Easy Abrasive Sheet Changes

These abrasive sheets are made with our 3M™ Stikit™ system, which offers convenient changes between grades or applications. Stikit™ sheets come ready to use with a pressure sensitive adhesive coating on the backside so that attaching them is as simple as pressing on a sticker, yet they remove cleanly without leaving any sticky residue behind. We suggest using our 3M™ Stikit™ Hand File Board part number 05444) or 3M™ Stikit™ Air File Shoe (3M part number 05448) with these abrasive sheets.

Suggested Applications

- Stripping paint to metal
- Shaping

When it comes to quality abrasives, grinding & sanding, 3M is the brand you can depend on.
