

3M™ Body Fillers, Glazes & Accessories

3M™ Platinum™ Plus Filler

Manufactured with only the highest quality ingredients, including our proprietary adhesion promoter. 3M™ Platinum™ Plus is a super creamy formula that achieves extreme adhesion to galvanized steel, aluminum, E-Coat, fiberglass, SMC, cured epoxy, and urethane primers.

Part #	Size	Case Qty.
01130K	3 Gallon Mechanical Pail	1
01131	Gallon	4
01132	3 Gallon Cartridge	2
31139	5 Gallon Air Pail	1
31181	Single Use Can, 6 oz.	12

3M™ Platinum™ Plus Glaze

Achieves extreme adhesion to galvanized steel, aluminum, E-Coat, fiberglass, SMC, cured epoxy, and urethane primers. 3M™ Platinum™ Plus cuts the sanding time to as little as 15 minutes.

Part #	Size	Case Qty.
03080	16 oz. Pump	6
03180	24 oz. Tube	6
31180	30 oz. Pump	6

3M™ Platinum™ Filler

A stain-free, tack-free, super premium lightweight filler that offers the industry's best adhesion to steel, galvanized steel, aluminum, E-Coat and SMC.

Part #	Size	Case Qty.
01121	Quart	6
01231K	3 Gallon Mechanical Pail	1
01171	Gallon	4
01271	3 Gallon Cartridge	2
01311K	5 Gallon Air Pail	1

3M™ Platinum™ Glaze

A stain-free, tack-free premium polyester glazing and finishing putty that offers the industry's best adhesion to steel, galvanized steel, aluminum, E-coat and SMC.

Part #	Size	Case Qty.
12011	24 oz Tube	6

BEST PERFORMING

3M™ MarGrip II Filler

Performance lightweight polyester body filler. Specially formulated to enhance adhesion to difficult surfaces such as galvanized steel, aluminum, and E-Coat.

Part #	Size	Case Qty.
05868	Gallon	4
05870	3 Gallon Air Pail	1
05871	5 Gallon Air Pail	1
31100	Single Use Can, 6 oz.	12

3M™ Advanced Finishing Glaze

Two component, self-leveling putty designed for use as a skin coat over body filler to fill pinholes, sand scratches, low areas and other imperfections.

Part #	Size	Case Qty.
05821	24 oz. Tube	6

3M™ Flowable Finishing Glaze

Two component flowable polyester material designed for the filling of pinholes, minor dents, gouges, scratches, and stone chips in properly prepared body filler, steel, aluminum, SMC, fiberglass and OEM paint.

Part #	Size	Case Qty.
05824	24 oz. Tube	6

Dynatron™ Xtra™ Glaze

Especially formulated to adhere to steel, galvanized steel, aluminum, E-Coat and SMC, as well as OEM paint and primer.

Part #	Size	Case Qty.
1097	24 oz. Tube	6

MID TIER

3M™ Lightweight Filler

A lightweight polyester body filler which cures to a tack-free state in 15 to 20 minutes. This filler has a creamy texture, spreads smoothly, offers easy sanding, and is vacuum processed to minimize pinholes.

Part #	Size	Case Qty.
05800	Quart	6
05801	Gallon	4
05805	5 Gallon Mechanical Pail	1

Dynatron™ Dynalite™ Filler

Professional's choice for lightweight body filler. This is product produced with the highest quality resins, talc and micro-spheres creating an automotive body filler that is faster and easier to work with.

Part #	Size	Case Qty.
492	Quart	12
494	Gallon	4
493	3 Gallon Cartridge	1
496K	5 Gallon Air Pail	1

Dynatron™ MUD Lite Filler

Formulated to be one of the easiest sanding fillers in its class.

Thicker than most, MUD Lite provides excellent vertical hang, but doesn't drag when spreading.

Part #	Size	Case Qty.
192	Quart	12
194	Gallon	4
196	5 Gallon Air Pail	1

Dynatron™ Dyna-Glaze

A stain-free, tack-free polyester finishing glaze with a creamy texture that makes it easy to spread and sand. Provides excellent flow out.

Part #	Size	Case Qty.
591	24 oz. Tube	6

ECONOMY

3M™ and Dynatron™ Hardeners

Crema hardening agent designed to be used with 3M™ or Dynatron™ Body Fillers.

Part #	Size	Color	Case Qty.
05766	2.75 oz.	Blue	12
05830	2.75 oz.	Red	12
301	1 oz.	Red	12
304	4 oz.	Red	12
307	2.75 oz.	Red	12
308	2.75 oz.	White	12
309	2.75 oz.	Blue	12
30748	2.75 oz.	Red	48
30753	2.75 oz.	Blue	48
30759	1 oz.	White	100

3M™ Disposable Paper Mixing Board

Offers a clean surface for mixing body filler and glaze.

Part #	Size	Case Qty.
20382	10" x 10"	12

3M™ and Dynatron™ Spreaders

Designed for spreading body fillers, fiberglass resins and finishing putties. The spreaders have sharp edges, are flexible, durable, easy to clean, and cured filler pops off easily.

Part #	Size	Case Qty.
05842	4"	50
344	4"	144
354	5"	144
363	6"	36

3M™ Dry Guide Coat Cartridge & Kit

A method for identifying surface imperfections such as pinholes and deep scratches in primer. Requires no masking and there is no dry time involved. Can be used for both wet and dry sanding. Contains no solvents.

Part #	Size	Case Qty.
05860	50 Gram Cartridge	10
05861	50 Gram Cartridge & Applicator Kit	6

Details

- Two-component, self-leveling glaze repairs surface imperfections
- Stain-resistant formula is compatible with basecoat and clearcoat systems
- Versatile formula works well on galvanized steel, aluminum and other materials
- Glaze cures tack-free in 30 minutes
- Vacuum processed to limit pinholes from occurring

3M™ Flowable Finishing Glaze fills pinholes, minor dents, gouges, scratches and stone chips in prepared body filler, steel, galvanized steel, aluminum, SMC, fiberglass and O.E.M. paint. Our two-component flowable polyester material helps collision repair shops restore the appearance of vehicles. It helps minimize staining that can occur with basecoats and clearcoats over economy body filler.

3M™ Flowable Finishing Glaze works well on galvanized, aluminum and thoroughly cured and sanded factory-applied paint surfaces. Minimizes staining that can occur with basecoat/clearcoat systems over body filler. This flowable, brushable product cures tack-free in 30 minutes. Use with 3M™ Cream Hardener part numbers 05829, 05830, or 05831. Two-component, stain-free, tack-free, self-leveling repair putty. Designed for use as a skin coat over plastic filler to fill pinholes, sand scratches, low areas or other imperfections.
