AVOID LEAKS AND COSTLY ENGINE DAMAGE...ALWAYS USE THREAD SEALANT!

**NO LEAKS, NO SEEPS!
NO STAINS, NO DRIPS!**

"I did my first oil change on my new vehicle. Installed a new OEM crush washer included in the filter box. I had a slow leak from the drain plug. Torqued the bolt correctly and tried another OEM crush washer with the same result. Did some research and found the Accufit drain plug. I ordered and installed it and the leak is gone. I really like the nitrile rubber gasket, much better seal than the aluminum OEM crush washer."

“The KLEDGE-LOK® tool has saved our customers hundreds of dollars in air conditioning repairs. Rear air conditioning lines on GM vehicles are very costly; being able to offer your customer options, replace, repair, or block off makes us the hero to the customer eyes. Not all shops have this technology, and we see vehicles coming from other shops because we offer options. Used car dealers love us for being able to repair rather than replace those costly lines.”
