

## Why should you choose X3?

Made from the same premium nitrile as our heavier gloves, yet X3 delivers excellent dexterity and tactile sensitivity.

Our lightest, most flexible industrial-grade nitrile—in short, among the most comfortable gloves you will ever wear.

Available in both standard blue and professional black.

Perfect for short-duration use where frequent glove changes are required, especially for food service and jan/san applications.

Made from component materials that comply with FDA regulations for food contact, they help prevent cross-contamination.

Latex free to avoid aggravating latex allergies, and powder free to prevent messy residue.

### X3 Industrial Nitrile Gloves

When you need a disposable glove with the strength of nitrile, balanced with excellent dexterity for lighter-duty applications, reach for AMMEX X3 Nitrile Gloves.

This glove will change everything you thought you knew about 3-mil nitrile. Perfect for short-duration use where frequent glove changes are required, they're a great fit in food service, janitorial, and sanitation applications.

Latex-free, powder-free, and chlorinated for easy changing. Available in an extended size range from small to XXL, sold 100 per box, 10 boxes per case.

Our lightest, most flexible, and lowest-cost nitrile option, these gloves offer a tremendous value.

- 3-Mil Industrial Grade Nitrile
- Textured
- Blue or Black
- Chlorinated
- Latex and Powder Free
- 9½ inch Length
- Non-Sterile
- Single Use

## Disposable Glove Basics: Material, Texture, and Thickness

Why should you choose nitrile?

Nitrile has three times the puncture resistance of latex. These gloves also offer tremendous comfort and conform to your hand for a great fit.

The grip is in the texture

The textured finish helps with a firm grip, which makes them suited for a variety of light-duty tasks. Great for short-duration jobs where frequent glove changes are required.

The right thickness for the job

These 3-mil gloves are made of the same premium nitrile as our thicker gloves, and deliver a dependable barrier against common and specialty chemicals and cleaning solutions.

## Common Industries and applications

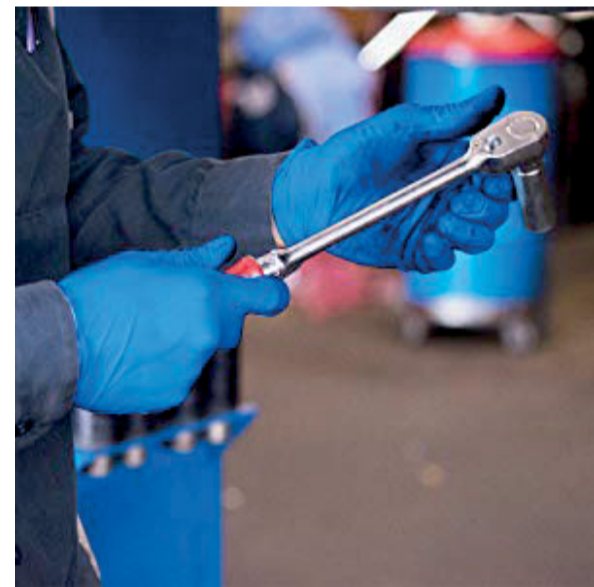

Paint

These gloves balance dexterity with dependability to deliver terrific performance. Order them in boxes of 200 and you will always be prepared for whatever projects crop up.

Food

These gloves are especially well-suited for food service, janitorial, sanitation, and quick-lube applications, and are made from component materials that comply with FDA regulations for food contact.

Variety of uses

Sold 100 or 200 gloves per box, 10 boxes per case, these gloves will save you both time and money. You'll re-stock less frequently, and ultimately pay less for packaging and shipping.
