HOW IT ALL COMES TOGETHER

120V

MT300™

Trigger Feed

Mini Glue Gun

220-240V

MT100™AUS

MT100™220EU

MT100™220UK

Step 1

When first using your new glue gun it will take one stick of glue to fill the melt chamber before glue begins to flow out.

If, when squeezing trigger, glue does not enter gun easily, do NOT continue to squeeze trigger. Glue chamber may not be hot enough to melt glue fully.

Excessive squeezing of trigger will cause hot glue to back up and flow out of rear of gun, possibly causing severe burns.

Step 2

Fold support stand forward. Fold back for use. Insert 5/16" (8mm) dia. glue stick through tunnel at back of gun.

Step 3

Plug cord into an electrical outlet and wait 5 minutes to heat up the glue, then apply adhesive by continuous pressure on trigger.

Step 4

Release trigger to stop the flow of glue. Apply pressure for approximately 60 seconds for complete bonding.

WARNING:

Do not touch heated nozzle or melted glue – may cause burn! Damage may result from extended contact with tip of hot glue gun. Do not leave unattended. Keep away from children and animals. Not intended for outdoor use. Do not use near water. Unplug glue gun when not in use. Allow glue gun to cool before storing. Do not try to remove unused portion of glue sticks from gun. Do not disassemble or attempt to repair this appliance – service must be performed only by an authorized service representative. This glue gun is for general household use only.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

Children shall not play with the appliance.

Cleaning and user maintenance shall not be made by children without supervision.

For best results use only Arrow® Superior Quality Glue Sticks.

MG12, MG24-4

ALL PURPOSE CLEAR
