

ATD-5025

Double Diaphragm Fuel Transfer Pump

- Heavy-duty aluminum die-cast construction
- Includes 2" die-cast bung adapter and extra heavy-duty steel handle with security locking latch
- Telescopic suction tube, adjustable to fit 15 to 55 gallon drums
- Easy dispensing through 8 ft. anti-static neoprene rubber hose with die cast dispensing nozzle
- Pump inlet fitted with easy clean wire mesh screen
- Stainless steel piston and fuel resistant hi-nitrile rubber diaphragm
- Dispenses 1 gallon in 5 strokes
- For use in service garages, fleet operations, road construction, marine, etc.
- Ideal for use where compressed air/power is not easily available
- Recommended for use with: gasoline, diesel fuel, fuel oil, motor oil and petroleum based media of light to medium viscosity (Note that fuels containing Ethanol will cause more frequent replacement of rubber parts)
- Do not use corrosive liquids, solvents, acids, alkalis, etc.

WARNING: Never operate the pump near fire source or spark, some media may be explosive and dangerous.
