ATD-80205
500 Lumen Wireless Charging LED Pocket Light
Owner's Manual

FEATURES:
• Heavy-duty anodized aluminum housing
• High and low light settings provide varied brightness and run times
• Constant current design delivers rated light output throughout battery charge cycle
• Super-bright COB LED bulb delivers a wider and brighter lighting area
• SMD LED top light offers an additional 150 lumen flashlight function
• Swivel hook with powerful magnet allows hands-free use
• Automatic shut off and overcharge protection prolongs battery life
• Wireless charging compatibility (wireless charger not included)
• IP54 rated for dust and moisture resistance

SPECIFICATIONS:
• 3.7V, 3200mAh lithium-ion battery
• USB Type-C cable
• Main Bulb Brightness: 500 lumens (high), 250 lumens (low)
• Run Times: 2 hours (high), 4 hours (low)
• Charging Time: 4 - 5 hours
• Top Light Brightness: 150 lumens

Operating Instructions

• Two methods of charging apply:

1) Charge with the cable: Plug the USB Type-C cable into any 5V DC power source power sourceand let the unit fully charge until the indicator above the front LED turns green.

2) Use wireless charging: Use the optional wireless charging pad (ATD-80206) or other wireless charger.
   a) Place the light on charging pad. Align the ⚡ with the center of the pad. If the light is not in the correct position, the LED charging indicator will not light up.
   b) When the light is placed correctly on the charging pad and during charging, the LED charging indicator will light up red
   c) When the light is fully charged on the charging pad, the LED charging indicator will light up green.
   d) When the light is left on the charging pad overnight, the LED charging indicator will remain green until the light is removed from the charging pad.
   e) Once the light is removed from the charging pad, the LED charging indicator will switch off.

• The light cannot be used while charging wirelessly.
• Press the switch once for top LED, twice for low power front LED, three times for high power front LED and four times to turn off.
• Charge the light after each use if it is used often, to ensure longivity. Charge light every month if it is not in constant use.

Cautions

• DO NOT use in or around tubs, showers, sinks, pools, hot tubs or in any wet environment
• Use only the recommended voltage and frequency requirements
• Keep out of reach of children
• DO NOT operate light with wet hands
• Keep light away from hot objects
• DO NOT leave light in direct sunlight for prolonged lengths of time
