

- Air gun for extruding and spraying single-component sealants, polymer and polyurethane cartridges, protective and soundproofing products
- Can be used with 310 ml plastic cartridges; pressure connection
- Supplied with extrusion nozzle kit, to make welds varying in geometry
- Atomization and amount of sprayed product can be easily adjusted, thereby obtaining more or less peeled surfaces and welds varying in width and depth

Tube dimensions	210x50 mm
Cartridge capacity	310 ml
Air inlet	1/4" GAS
Working pressure	3 + 5 bar
Nozzle Ø	1.6 - 2.5 mm
Mean air consumption	250 l/min
Weight	1.2 kg
