

Bon[®] Bucket Mount Asphalt Cutter

Bon[®] Bucket Asphalt Cutters cut faster and easier than any other method. Produces smooth sided cuts up to 5-1/2" inches deep at rates up to 6000 feet per hour through high density asphaltic materials.

Bon[®] Bucket Asphalt Cutters quickly attach to most backhoes, tractor/wheel loaders, road graders, dozers and other construction machinery to maximize your existing equipment's utility and versatility. No special tools, machine modifications or adaptors required.

Standard features include unitized, steel plate structures to resist stress related cracking and distortion; special alloy steel cuffing blades that are field replaceable without disturbing bearings or seals, and a patented clamping system that keeps the blades tight on your machine.

NOTE: Not for use with skid loaders

AVAILABLE IN TWOSIZES:

PART #	#82-474	#82-475
FRAME	Unitized Welded Steel Plate	Unitized Welded Steel Plate
CUTTING BLADE	13-1/2"(343 mm) Diameter Heat Treated Alloy Steel, Field Replaceable	19" (483 mm) Diameter Heat Treated Alloy Steel, Field Replaceable
HUB	Alloy Steel Axle Steel Hub Integral to Cutting Blade	Alloy Steel Axle Ductile Iron Hub
BEARINGS	Sleeve Type	Timkin [®] Type
MOUNTING	Twin Screw Pivoting Clamp	Twin Screw Pivoting Clamp
FORCE CAPACITY	25,000 lbs	50,000 lbs.
CUT DEPTH	5"	5-1/2"

IDEAL FOR:
 PATCHING
 SCORING & EDGING
 UTILITY LINE CONSTRUCTION
 PIPELINES
 STREET, WATER & SEWER
 PROJECTS
