

Texture Rollers

BonWay™ easy to use texture rollers add beauty to all types of concrete projects. Ultra-thin companion mats are available for each pattern. These skinny mats are ideal for touch up work and for areas that rollers cannot reach.

Available in a variety of patterns. Use with Liquiform™ Liquid release or True Color™ Powdered Release Agent to prevent the roller from sticking to freshly placed concrete. Frames are sold separately to accommodate small or large rollers.

Frames For Concrete Texture Rollers

- #32-237 6"
- #32-236 22-5/8"
