

Texture Skins

BonWay™ flexible texture skins have a feathered edge to produce seamless texture with no grout lines. Skins provide an easy method to add textures, because there is no issue with pattern alignment. Use smaller sizes to flex into hard to reach areas. Texture pattern is shallow, so the skins are ideal for adding detail to thin cement-based overlays or micro-toppings.

Available in a variety of patterns, each pattern in three sizes. The 48" x 48" size is equipped with handles for easy maneuverability.

APPLICATIONS INCLUDE:

Vertical surface such as walls or columns

Stairs, risers

Slab edge or other areas difficult to reach with standard urethane mats

Blemish and minor flaw fixes

Overlay or microtopping finish work

Italian Slate Texturing Skin
