

About This Bottle

The Chemical Guys Duck Foaming Sprayer turns any car cleaning chemical into a powerful foaming mega cleaner! Spraying a car cleaner onto the surface is an efficient way to coat a dirty car part, but a thin liquid could just run down the surface. Every pull of the Duck Trigger sprayer pumps out 3.5 ml of cleaning product foam for fast and efficient coverage of any area, large or small. Spray the cleaner from the Duck Foaming Trigger, and turn the thin liquid into thick sticky foam. When a cleaner is in a foam, it has time to stick onto the dirty car part and actually work to clean and degrease the area. Fill the Ducky Foaming Sprayer & Bottle with your favorite Chemical Guys degreaser, wheel cleaner, or all-purpose cleaner to turbocharge your detailing process! Foam up a dirty engine bay with Signature Series Orange Degreaser to remove oil, brake fluid, and dirt. Spray Diablo Wheel Gel foam on wheels, brakes, and undercarriage parts for enhanced cleaning power with less scrubbing. Spray Lightning Fast Stain Extractor foam onto carpets to break down stains and lift dirt and grime to the surface of the foaming bubbles. Foam up some Chemical Guys Leather Cleaner and float body oils and dirt out from the pores of leather for easy cleaning and degreasing. The extra large 32 oz solution bottle comes printed with a convenient dilution ratio chart on the side for easy mixing and blending of your own custom strength cleaning chemical. The possibilities are just about endless with the Duck Foaming Trigger Sprayer & Bottle. Professional detailers choose tools that get better results, use less product, and last for years of dependable use. Upgrade your sprayers to the Duck Foaming Trigger Sprayer, and see why professionals use the foaming cleaner action for their detailing jobs inside and outside their vehicles.

Foamy Cleaners Work Better

Detailing professionals and enthusiasts love Chemical Guys products and methods like Foam Cannon car washes. Spraying the car with thick car wash soap foam helps loosen abrasive dirt and debris without rubbing and scrubbing that can cause swirl marks and scratches, and it makes every drop of soap do more work when mixed with high pressure air and water. Now you can use this same principle with the Duck Foaming Trigger Sprayer! Every pump of the sprayer head sprays cleaning product through the mixing nozzle to blend it with air and create thick clingy foam. Spraying a cleaner with a normal sprayer head allows the liquid to run down the dirty part. Creating a thick foam helps the cleaner stick onto the dirty part, giving it more time to work and break down the filth and grime stuck on the surface. Every ounce of cleaner does more work to clean dirty car parts when it sticks in place as a thick foam. This simple principle makes cleaners more efficient and stretches your detailing dollar. Put your favorite wheel cleaners, degreasers, all purpose cleaners, and leather cleaners to work harder for you with the Duck Foaming Trigger Sprayer.

Choose Your Own Detailing Adventure

The Duck Foaming Trigger Sprayer & Bottle is compatible with any Chemical Guys cleaning product. Use your favorite wheel cleaner, car wash soap, window cleaner, fabric cleaner, all purpose cleaner, or heavy duty degreaser through the foaming mixing head to create a thick clingy foam. This simple tool revolutionizes the power of your favorite Chemical Guys cleaning products by turning them into super-cleaners! The Duck Foaming Trigger Sprayer Bottle is a great option no matter what car part you are cleaning. Work inside the car to clean leather, fabric, cloth, carpet, and even plastic console and dashboard parts with the enhanced foamy cleaning power of your favorite products. Keep heavy duty wheel cleaners on the brake dust and road grime to clean wheels and rims with less rubbing and scrubbing. Loosen stuck-on grease, oil, and filth from engine bays with the foaming suds of your favorite Chemical Guys degreaser and all purpose cleaner. No matter the angle, location, or surface that's dirty, choosing the Duck Foaming Trigger Sprayer is the professional's secret to maximizing the effectiveness of the product for smarter detailing product usage.

Fully-Adjustable For Every Job

Another trait professionals value in the tools they choose is versatility. If one product can do many jobs well, it is usually a better investment than one that cannot. The Heavy Duty Bottle & Ducky Foamy Sprayer is fully-adjustable and can be set up for spraying thick or thin cleansing foam in, around, and outside the car, home, or office. Spraying chemicals in a blanket of foam helps maximize coverage with minimum product. The Heavy Duty Bottle & Ducky Sprayer also features a printed label with dilution ratio instructions and measures right on the bottle. Now you can mix, blend, and dilute your own custom brew of detailing chemicals to suit any cleaning need, heavy duty or lightweight. The possibilities are practically endless! Don't change your detailing techniques and jobs to suit your tools: choose the tools that perform where and how you need them. Choose Chemical Guys Ducky Sprayer and Heavy Duty Bottle, and take on any detailing job anywhere, any time.

How To Use:

- Unscrew sprayer head and fill the bottle with your preferred detailing cleaner, degreaser, or detail spray.
- Use the pre-marked dilution ratio levels on the bottle to mix your preferred chemical with water for the perfect amount of cleaning strength.
- Reattach sprayer head and shake bottle to mix solution. Squeeze trigger and foam product over the workpiece.
- Adjust the sprayer nozzle for precise foam thickness control as needed.
