

## How It Works

The Ultimate Fire Hose Car Wash Nozzle is the perfect attachment to wash and rinse any vehicle. The premium fire hose nozzle is built from durable CNC machined aluminum that is anodized to last for years. The adjustable fire hose nozzle can easily spray a strong stream of water to blast off dirt, or a gentle fan to rinse off a vehicle after a wash. The anodized aluminum construction means the Ultimate Fire Hose Car Wash Nozzle will never rust. The heavy-duty rubber grips allow you to have full control of the powerful stream of water that is created by the nozzle. The Ultimate Fire Hose Car Wash Nozzle features a standard 3/4" hose thread that easily attaches to any household or industrial water hose. The Ultimate Fire Hose Car Wash Nozzle uses dual internal o-rings to create a strong seal and maintain control of the water flow. The internal design is precision drilled to provide the most powerful stream of water to the vehicle. Perfect for rinsing any car, truck, motorcycle, RV, boat, or watercraft. Great for washing patios and gardening for ultimate versatility. The innovative adjustable design allows for the perfect control in any detailing situation. Wash any car using the heavy duty power of the Ultimate Fire Hose Car Wash Nozzle.

Experience powerful water power with the Ultimate Fire Hose Car Wash Nozzle. The amazing design has 400% more water flow than a standard nozzle. The efficient nozzle is better than using your thumb over a hose. The solid frame is constructed from aircraft-grade aluminum with a corrosion-resistant anodized coating that lasts for years of use. The Ultimate Fire Hose Car Wash Nozzle means serious business. The durable rubber grip allows for complete control of the water stream and protects your vehicle from scratches if accidental contact occurs with your paintwork. The nozzle is fully adjustable to create many different water spray patterns. Any pattern from a strong stream or a gentle fan can be used to wash your vehicle. The Ultimate Fire Hose Car Wash Nozzle connects easily to any standard 3/4" garden hose for use in any home or detailing shop. Easily blast the dirt off any vehicle in seconds with the power and durable hose design.

## Ergonomically Designed

The Ultimate Fire Hose Car Wash Nozzle is the perfect car wash accessory for any detailer. The ergonomic design easily fits in any size hand. Rinse away shampoo after a wash to easily dry the vehicle. The Ultimate Fire Hose Car Wash Nozzle is built to last for years using the highest quality aluminum and rubber construction. Dual o-rings create a leak proof seal for total control of the nozzle. No more accidentally spraying the water over your buddies.

## Save Water By Using A Hose Nozzle

The Ultimate Fire Hose Car Wash Nozzle gives you complete control of your wash. Millions of gallons of water are wasted every year by not using a hose nozzle. The Ultimate Fire Hose Car Wash Nozzle conserves water by preventing unwanted runoff from an open hose. The Ultimate Fire Hose Car Wash Nozzle uses water to maximum efficiency by creating more power from less water. Innovative spray nozzle design utilizes the most powerful spray to quickly rinse off any vehicle in seconds. The Ultimate Fire Hose Car Wash Nozzle is the perfect accessory for the weekend or professional detail to get any job done.
