

## About This Brush

Wheel wells and fender liners are hard to clean because the wheel is in the way! Many amateur detailers try to reach around the tire with an old rag or small brush to clean out any dirt and grease, but they can never get it all out. The Chemical Guys Extra Long Wheel & Tire Brush is the perfect tool for cleaning OEM and custom wheels, tires, fender liners, textured plastic trim pieces, undercarriages, suspension parts, and more. The fully-synthetic brush is tough on dirt and grime, yet gentle on painted, chrome, powder coated, and polished wheels. This wheel and tire brush features an extra-long handle with an angled head. This angle slips the scrubbing head in between the tire and wheel well for fast and easy cleaning of rubber, plastic, and carpeted fender liners. The durable plastic handle is scratch and abrasion resistant, and will not damage wheel finishes if accidentally rubbed on the surface. Soft flagged-tipped green bristles gently scrub and lift dirt and grime from wheels for a scratch-free shine. Easily clean away brake dust, dirt, oil, road grime, and more with the Extra Long Wheel & Tire Brush.

## Extreme Versatility

The Extra Long Wheel & Tire Brush is perfect for cleaning wheels and fender liners, but the extra-long reach is well suited for cleaning on all rugged vehicle surfaces. Save back strain and scrub lower plastic rocker panels and trim pieces without bending down. Easily clean large truck beds, trailers, RV siding, lifted truck undercarriages, brush guards, radiator grilles, and engine bays with the Extra Long Wheel & Tire Brush. The possibilities are unlimited! If your cleaning task is just out of reach, reach out with the Extra Long Wheel & Tire Brush and take it down.

## Scratch-Free Brush

The Extra Long Wheel & Tire Brush is great for powerful cleaning on dirty wheel wells, fender liners, wheels, tires, and suspension parts. The soft synthetic bristles are split for a soft touch on sensitive wheels and rims, and easily remove tough dirt, debris, and brake dust. The extra-long handle is contoured to the human hand for comfortable ergonomics, powerful cleaning, and low fatigue with extended scrubbing. The brush end is angled to easily slip into wheel wells for easy cleanup on fender liners in tight quarters. Easily scrub away brake dust, dirt, road grime, oil, grease, and more. Clean and scrub chrome, polished, painted, powdercoated, and wrapped OEM and custom wheels with a scratch-free shine. The abrasion-resistant handle is cast from durable plastic to last for years of rugged detailing use. Use the Extra Long Wheel & Tire Brush to clean wheels, tires, suspension parts, inner fender wells, bumper trim, and more.

## Powerful Scrubbing Action

The Extra Long Wheel & Tire Brush is the perfect brush for cleaning wheel wells, fender liners, wheels, and tires. All wheel parts require specialty cleaning tools that are different than those for paintwork and glass. Use Chemical Guys Extra Long Wheel & Tire Brush to scrub away embedded dirt, brake dust, and grime without harming sensitive wheel finishes. Clean mud, dirt, and grime off plastic and carpeted fender liners and undercarriage parts. Scrub OEM and aftermarket wheels to agitate brake dust, dirt, grease, and grime from the surface. To clean wheels and fender liners, rinse away loose contamination and spray the face and barrel down with your favorite Chemical Guys wheel cleaner. The soft and durable flagged-tip bristles easily scrub filth from wheel faces, cracks, and crevices. Once contamination is suspended in the cleaner, simply rinse it away with water. The Extra Long Wheel & Tire Brush removes caked on dirt and grime to restore a like-new appearance. For heavy duty cleaning on even the filthiest wheels, fender liners, and suspension parts, use the new Chemical Guys Extra Long Wheel & Tire Brush.

## Rugged Build Quality

Chemical Guys brushes and accessories are made from the highest quality materials, and with the most advanced manufacturing techniques. The Extra Long Wheel & Tire Brush is made with durable flagged-tipped bristles for tough scrubbing that doesn't harm sensitive alloys or finishes. The soft synthetic bristles are bunched together into tight bundles, then firmly anchored down into the rugged plastic handle. The one-piece brush handle is angled at the end to easily slip in between wheels and fender liners for fast and effective cleaning. The brush handle and bristles are chemical resistant, and stand up to years of use with all types of cleaners and degreasers. The abrasion-resistant handle is injection-molded from durable plastic that is practically indestructible. The Extra Long Wheel & Tire Brush lasts for years of detailing use.

## How To Use:

For best results, avoid paintwork and sensitive optical plastics; only clean durable textured plastic, rubber, and polished metal surfaces with the Extra Long Wheel & Tire Brush.

- To clean wheels, first rinse away loose contamination and spray the face and barrel down with a Chemical Guys wheel cleaner.
- The soft and durable synthetic green bristles easily scrub filth from deep inside wheel faces, fender liners, engine bays, and more.
- Once contamination is suspended in the cleaner, simply rinse it away with water.
- The Extra Long Wheel & Tire Brush removes caked-on dirt and grime to restore a like-new appearance.
- Use the Chemical Guys Extra Long Wheel & Tire Brush for heavy-duty cleaning on the filthiest wheels, engine bays, and hard-to-reach spots.
- Use The Extra Long Wheel & Tire Brush with premium Chemical Guys detailing products, such as Diablo Wheel Gel, Signature Series Wheel Cleaner, NONSENSE All Purpose Cleaner, and any Chemical Guys car wash soap.
- Use separate wheel-cleaning buckets, tools, chemicals, and towels from paintwork to ensure a scratch-free shine on paintwork and wheels alike.
