To all of our Valued Customers & Dr. Shrink Family,

2017 was a monumental year for Dr. Shrink as we celebrated 25 years in business. I would like to thank you for being there to help us grow this business during that time. Your incredible support and partnership throughout these years is something I cannot thank you enough for.

Each and every Dr. Shrink employee strives to bring you the best service, products, and advice to grow your business into a thriving and successful part of the shrink wrap industry. To improve our very good customer service the Dr. Shrink team is doing much in-house training to improve product knowledge, accuracy of orders, and shipping times.

There are still new markets for shrink wrapping that come along every year—we want our customers to grow into these areas! If you have a heat tool you might as well be making money with it. Ask us how we can help you make that happen.

The Dr. Shrink family is passionate about shrink wrap and the industry, and we believe in innovation and new ideas. We are still working on improving our fantastic product line which is already the best in the world.

On behalf of myself and the entire Dr. Shrink family, I want to thank you again for your support and here's to another great year of partnership.

With Warmest Regards,

Michael Stenberg
CEO and Founder

UCTS

You do not become the global leader in shrink wrap without having inventory ready to ship when you need it most. Dr. Shrink's 78,000+ square foot warehouse contains one of the most comprehensive inventories of shrink wrap supplies on the planet.

NEW PRODUCTS

With a new shrink wrap season, new products, innovation and technological advancements are expected to be rolled out by the Dr. Shrink team. This year, we are pleased to announce a variety of new products from our partners. We have really pushed hard for heat tool advancement along with broadening the use application and reach of shrink wrap to our European customers. With that, we introduce this exciting new line of products for this upcoming season.

INTRODUCING...

SHRINKFAST
Innovators in Heat Shrink Tools

MZ Heat Tool Kit

The Shrinkfast® MZ is a durable, propane powered heat tool, weighing in at only 1.75lbs, it is one of the lighter heat tools on the market and one of the industries leading lightweight DIY heat tools. Kit comes complete with plastic carrying case, 25' propane hose, adjustable regulator and wrench for tightening fittings.

RIPACK

Ripack Gas Cylinder Trolley

Robust metal construction and ease of use will give you the portability you require with any heat tool. Complete with a hose guide, heat tool support stand, and will pack flat for easy transportation.

4'-9" and 6'-8" Heat Tool Extensions for Ripack

Used with the Ripack 2200 or 3000 propane fired heat tool. Quick and easy assembly. All components are integrated and protected from the environment. Use extensions to work quickly and easily.

Corner Guard

New for the 17/18 season, protect your investments with the all new Dr. Shrink Corner Guard. This molded plastic is reusable season after season and provides superior protection to your wrapped objects and also reduces the amount of rips and tears in your shrink wrap.

EUROPEAN Flame Retardant Shrink Wrap

40' x 60' & 24' x 60'

12-MIL

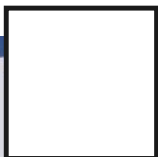

100% virgin resin European Flame Retardant shrink wrap. Enjoy 12 month UV protection from either of our two available sizes.

Dr. Shrink's new European Flame Retardant Shrink Wrap has passed the Fire Test according to EN 13823 SBI and meets the criteria for: ISO 11925-2:2010, BS EN 13823:2010, and Fire Classification B-s1, d0.

PREMIUM SHRINK WRAP

THE BEST IN THE BUSINESS...

With Dr. Shrink, you have come to expect the highest quality shrink wrap in the business, and we do not disappoint. Here is a complete guide to our shrink wrap sizing and specialty films currently available. Our world-class customer service department look forward to serving you and your year-round shrink wrap needs.

White Wrap

Ideal for just about any wrap project and the most popular color in the shrink wrap industry. The white reflects sunlight and harmful UV rays. Best used for transportation covers and general outside storage. White shrink wrap is also the color of choice for work enclosures and scaffolding. It provides shadow-free lighting and good color rendition.

Blue Wrap

Ideal for the marine industry when snow loads are prevalent. Blue absorbs sunlight allowing snow to melt and fall off the cover easier during winter. Used for winter storage and NOT recommended to be used as a transportation cover.

Clear Wrap

Commonly used for greenhouses and non-storage applications.

PRODUCTS

Volatile Corrosion Inhibiting

VCI shrink wrap is a "Volatile Corrosion Inhibiting" shrink wrap. It contains additives that will prevent corrosion on both ferrous and non-ferrous metals, and electrical connections, for periods up to 2 years. VCI shrink wrap comes in 6 and 7-mil white and 8-mil gray.

Dura-Skrim®

Dura-Skrim® 2FR consists of two sheets of high-strength flame retardant virgin film laminated together with a third layer of molten polyethylene (the molten layer of polyethylene renders it unshrinkable – as such, it resists heat and is resilient in a way shrink wrap is not). A heavy-duty scrim reinforcement placed between these plies greatly enhances tear resistance and increases service life. Dura-Skrim® 2FR meets or exceeds NFPA 701 requirements. Commonly used in applications that require a flame retardant, high puncture and high tear-strength material.

Vehicle Wrap

This material applies easily to damaged vehicles to protect against adverse weather until auctioned or repaired. Ideal for auto salvage yards, accident sites and transportation preparation. Vehicle wrap has a self-adhesive backside and is UV protected to provide a long-lasting barrier against the elements.

Flame Retardant

Flame Retardant shrink wrap contains specialized additives that will extinguish the wrap within 4 seconds of having the source of ignition removed. All of our Flame Retardant Shrink Wrap meets or exceeds NFPA 701 specification. Available in white opaque only in 7, 9, or 12-mil thicknesses. Contains UV inhibitors for long term usage.

TAPE

Heat Shrink Tape

Heat Shrink Tape is a 9-mil polyethylene tape that is designed to install doors and seal pleats, seams, and holes. Heat Shrink Tape has a powerful backing that adheres nicely to shrink wrap. Available in blue, white, and clear in 2", 3", 4", and 6" widths. All rolls are 180' long. 2" and 4" white is also available with a serrated edge for easier tearing. A light-duty version of our heat shrink tape is also available. Light-duty heat shrink tape is a 7.5-mil polyethylene tape. Sizes are 1.5", 2.5", 4", & 6". Available only in white with serrated edges.

CUSTOMER FAVORITE

PLEASE NOTE: Clear tape is NOT recommended for usage longer than 60 days. An adhesive residue will result.

COLORS

Preservation Tape

Preservation Tape is a 10-mil, waterproof tape that contains UV inhibitors for long term storage and leaves minimal adhesive residue. Preservation Tape is most commonly used for transportation covers where the cover needs to be taped directly to the object. Available in blue, white, clear, and black in 1", 2", 3", 4", and 6" widths. All rolls are 108' long.

PLEASE NOTE: Although preservation tape is designed not to leave a residue, the adhesion is very strong and it is possible that the top layer of paint or finish may come off painted surfaces or wood. Please test a small area before applying to the entire surface.

Anti-Chafe Tape

Dr. Shrink's Anti-Chafe Tape is a high performance polyethylene film that provides a tough, puncture resistant material to prevent abrasion. This tape is designed as a low-tack film that will provide protection for your boat or other object. Use only between shrink wrap and the object. Simply apply it directly to the object where the shrink wrap touches. The tape acts as a barrier between the object and shrink wrap, thus preventing any scratching or chafing. The black underside of the tape contains UV inhibitors to prevent the sun from drying out the adhesive.

Dr. Shrink Stealth Vent

The Stealth Vent is easily installed by simply piercing the shrink wrap cover. Provides protection from condensation, heat build-up and mildew from trapped moisture. Seals itself to prevent rain and snow from getting under the cover.

Dr. Shrink Round Airlette Vent

The Round Airlette, Three-part, self-adhesive vent that firmly sticks to shrink wrap and can withstand all weather conditions. One-way air flow design allows air to escape without allowing moisture in. Made of lightweight and durable plastic.

PART #	DESCRIPTION
DS-STEALTH	Self-piercing Stealth vent
DS-062A	Self-adhesive round airlette vent
DS-SCOOP	12-ml triangular clear plastic vent (package of 6)

ZIPPER ACCESS DOORS

Doors are taped on the finished cover to allow access into a shrink wrapped object without compromising the durability of the cover. Use a film knife to cut the inside of the opening for access into the shrink wrapped object. Available in 36", 48", 72" and 82" lengths by 30", 36" and 40" widths. They have double-pull zippers and are available in clear, white, and blue.

COLORS	PART #	DESCRIPTION	COLORS
	DS-36	30" x 36" zipper access door	Blue, White, Clear
	DS-48	30" x 48" zipper access door	Blue, Clear
	DS-3648	36" x 48" zipper access door	Blue, White, Clear
	DS-4082HDC	40" x 82" heavy-duty zipper access door	Clear
	DS-72	36" x 72" zipper access door	Blue, White, Clear

CARTS & STORAGE

Heavy Duty Film Rack Cart

The heavy-duty film rack is built out of black powder coated steel and can hold up to four 200 pound rolls of shrink wrap - along with heat tools, propane tank, strapping and other supplies. The rack rolls on the extra large casters with locks for ease of use. It is ready to make the installation of shrink wrap much easier for you.

DS-HDRACK

DS-GOCART

Go Cart

Easy assembly - easy take down! This lightweight cart is durable and easy to maneuver. Four 8" lockable, rotating wheels make braking and handling a snap.

Dr. Shrink Film Rack

Dr. Shrink's Film Rack is made of square steel tubing measuring 18". These rails are perfect for easy mounting on either the floor or the wall. The center pole is a 72" long piece of conduit, sturdy enough to hold even the largest of shrink wrap rolls.

DS-FILMRACK

Utility Cart

Lightweight two-wheeled Utility Cart with a spot for everything. Holds the propane tank, heat tool, hose, strapping, tape, buckles, etc. Rolls easily on 8" wheels.

DS-UTILITYCART

Ripack Gas Cylinder Trolley

Robust metal construction and ease of use will give you the portability you require with any heat tool. Complete with a hose guide, heat tool support stand, and will pack flat for easy transportation.

DS-RIPTROLLEY

Shrink Wrap Counter

Precisely measures material pulled from the roll in feet/inches. This counter features a stable mounting base, measuring wheel, and features a clear display window to easily view the measurements. Counter will attach easily to most film carriers and carts and will accurately measure within a 5% variance. Also great for measuring pre-cut sheets.

DS-WRAPCOUNTER

PART #	DESCRIPTION
DS-HDRACK	Heavy-duty steel film and accessory rack on 8" casters
DS-GOCART	Lightweight aluminum storage rack on 8" casters
DS-FILMRACK	Single roll film rack with 72" pole
DS-UTILITYCART	Dolly-style accessory storage cart
DS-RIPTROLLEY	Ripack Gas Cylinder Trolley
DS-WRAPCOUNTER	Shrink wrap footage counter

PRODUCTS

STRAPPING SYSTEM

Woven Cord Strapping

Woven cord strapping is used with wooden uprights and buckles to form the support structure under shrink wrap covers. It is also used to create the perimeter band that will secure the shrink wrap material. 1/2" and 3/4" widths available in both standard strength and heavy-duty.

PART #	DESCRIPTION <i>BS = Break Strength</i>
DS-50015	1/2" x 1500' woven cord strapping (750 lb. BS)
DS-50015HD	1/2" x 1500' heavy-duty cord strapping (900 lb. BS)
DS-500	1/2" x 3900' woven cord strapping (750 lb. BS)
DS-500HD	1/2" x 3900' heavy-duty cord strapping (900 lb. BS)
DS-750300	3/4" x 300' woven cord strapping (900 lb. BS)
DS-7501500	3/4" x 1500' woven cord strapping (900 lb. BS)
DS-750	3/4" x 2100' woven cord strapping (900 lb. BS)
DS-750HW	3/4" x 1665' heavy-duty cord strapping (1625 lb. BS)

Dr. Shrink Strap Dispenser

It's never been easier to dispense your strapping! Dr. Shrink's Strapping Dispenser has a durable and lightweight design which is compatible with all of our premium 1/2" and 3/4" strapping rolls. The unit features a convenient carrying handle and low resistance spindle system. The Strapping Dispenser is the ideal tool to prevent knots, tangles, and twists in the strapping.

PART #	DESCRIPTION
DS-STRAPDISP	Strapping dispenser

Dr. Shrink Corner Guard

This molded plastic Corner Guard is reusable season after season and provides superior protection for your wrapped objects and also reduces the amount of rips and tears in your shrink wrap.

PART #	DESCRIPTION
DS-CGUARD	Molded Plastic Corner Guard

Strapping Protector

The Protector is designed for two different applications: 1: A method of keeping strapping from forming dents in vinyl upholstery on boats -- 2: Used as corner guards to keep shrink wrap and strapping from being cut on sharp edges. Notched on all four sides for easy attachment to strapping.

PART #	DESCRIPTION
DS-PROTECTOR	Strap protector

Buckles

Buckles are needed in both the support structure and the perimeter band. The buckle is used with the strapping and tensioning tool when creating a tight-fitting perimeter band. When creating the support structure, the buckles allow the installer to sufficiently hand tighten the strapping and produce a sturdy, sloping frame for the shrink wrap cover.

PART #	DESCRIPTION
DS-050	1/2" buckles (100 per bag by weight)
DS-075	3/4" buckles (100 per bag by weight)

Tensioning Tool

The Tensioning Tool is used when creating the perimeter band. If the perimeter band is left only hand tightened, the cover will sit loosely over the object and can rub and chafe the object. A band properly tightened with the Tensioning Tool will create a powerful perimeter band that will hug the cover securely against the protected object, preventing movement and eliminating chafing.

PART #	DESCRIPTION
DS-15	Strap tensioning tool

End Caps & Bottom Caps

End Caps and Bottom Caps are designed to fit on the top and bottom of 2x4 boards commonly used as support poles under shrink wrap covers. The Caps have slits every 90° for the woven cord strapping to slide into and when the cover is shrunk, the sections flex downward forming a protective pad on the top to eliminate pole poke-through. Bottom Caps have non-skid disks attached for added stability.

PART #	DESCRIPTION
DS-CAP	End cap for top of support pole
DS-BCAP	Bottom cap for bottom of support pole

Super Cap

The Super Cap is designed to transfer the weight of snow, ice, and rain from the top of 2x4 support poles used under shrink wrap storage covers. Dome shaped and 20" in diameter, the Super Cap rests on the woven cord strapping running both lengthwise and crosswise, thus minimizing support poles from poking through shrink wrap covers. Super Caps can be easily attached to wooden uprights with either a nail or staples.

PART #	DESCRIPTION
DS-SUPERCAP	Extra large end cap for support pole

PRODUCTS

Liftoff

The Liftoff is perfect for wrapped objects that need additional ventilation as well as surface protection (such as painted boat hulls or delicate machinery) during the wrapping process.

PART #	DESCRIPTION
DS-LIFTOFF	Liftoff assembly

MOISTURE CONTROL

ProGardo Corrpac VCI Capsule

VCI Capsule designed for long term corrosion protection of closed areas. Each capsule protects 25 cubic feet (1 cubic meter), lasts up to 5 years and is efficient at absorbing chloride or sulfide gases.

PART #	DESCRIPTION
DS-PROCAP	ProGardo Corrpac-2 VCI capsule

ProGardo Desiccant Bags

ProGardo Desiccant bags with special characteristics of 300% + absorption rate and polymer encapsulated. Product protects 90 cubic feet and is sold with a convenient hanger for easy placement. Product does not leak after full absorption.

PART #	DESCRIPTION
DS-PROCDRI	ProGardo CargoPack 300 desiccant bag

CargoDry Pak

CargoDry Pak absorbs moisture vapor and reduces dew point temperature inside transport containers, boats, and other storage containers. By preventing condensation, CargoDry Pak eliminates corrosion, mildew, peeling labels, and other harmful effects of moisture-related damage during shipping and storage (protects 45 cu. feet).

PART #	DESCRIPTION
DS-CDRI	CargoDry Pak desiccant bag

Mildew Gas Bags

Mildew Gas Bags protect against mildew and eliminate musty odors under shrink wrap covers. No formaldehyde is used in the bags and they are safe for the environment, humans, and pets. Each bag protects an enclosed area up to 10 cubic feet.

PART #	DESCRIPTION
DS-MBAGS	Mildew gas bags

Humidity Dial

The Humidity Dial features an easy to read dial with clear display window. Shows humidity (by percentage with the dial) inside shrink wrapped objects. Humidity dial ranges from 0% - 100% humidity.

PART #	DESCRIPTION
DS-HUMIDITYDIAL	Humidity Dial

TRIES

Go beyond the boat! When Dr. Shrink started, we were so focused on the short marine and recreation season, we didn't realize the full potential of a 12 month shrink wrap industry until we started to identify the major needs in all industries of shrink wrap across the globe. Today, we are proudly supplying products, educational materials, marketing support and much more to businesses who have made their marine and recreational hobby into a thriving 12 month career. Let us help get you and your business to the next level.

INDUSTRIES WE SERVE

When customers make the initial investment in shrink wrap equipment and training, we've noticed they have done so with a focus on the marine industry. Did you know that the shrink wrap industry is a year-round business for many of our customers?

Let the experienced team at Dr. Shrink show you how to turn your seasonal business into a thriving year-round business.

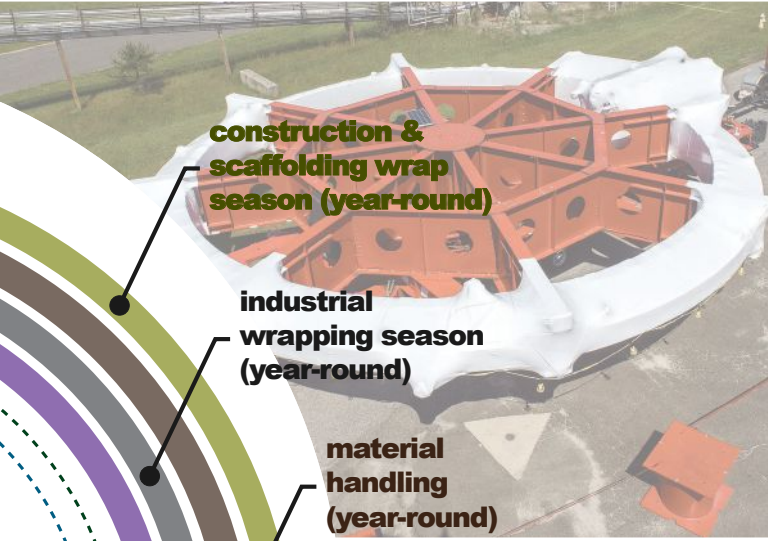

**agricultural

RECYC

REBAG® SYSTEM
RECYCLING RUN

REBAG®
RECYCLING SYSTEM

**RECYCLING
RUN
PROGRAM**

REBAG® **RECYCLING SYSTEM**

Dr. Shrink has devised a simple, yet effective recycling system which allows you to recycle your shrink wrap scraps and entire covers. The REBAG® kit consists of a 30" x 50" clear bag with cover removal directions printed on it, a closure device for the bag, and a prepaid FedEx return label - all neatly packaged in a hanging bag. Each REBAG® will hold the cover from a 26' power boat or approximately 600 square feet of plastic.

**RECYCLING
RUN
PROGRAM**

It is easy to do your part to keep this premium material out of the landfill! Please think of the environment. The Recycling Run pickup regions are currently all throughout **Michigan, Indiana, Illinois, Wisconsin and Ohio**. Dr. Shrink's premium shrink wrap is a 100% virgin resin material that is easily recycled into a variety of usable consumer products. Shrink wrap will NOT biodegrade in a landfill, so it is extremely important to have it recycled. We appreciate your help and participation in this effort.

LING

RECYCLING VIDEO
