E-Z MIX®

Mould Prep™ Double-Sided Tape Remover

It's Simple and E-Z!

Revolutionary solution for removing double-sided tape from vehicle mouldings. Use solution over and over, making it a very economical process.

- Get more production from employees
- Safe to use on chrome inserted mouldings
- Will not damage painted mouldings
- NO VOLATILE SOLVENTS - will not evaporate

It's EASY as 1 - 2 - 3!

1. Carefully remove the moulding from the vehicle and place in the E-Z Mix Mould Prep™.
2. After 8 hours or longer, remove moulding from the soaker tray and the double-sided tape will now easily peel away.
3. Wipe the moulding dry and replace with new double-sided tape. The moulding is now ready for installation.

Do not use with hollow moldings.

#71128 Gallon (4 Gallons per case)

#71160

E-Z MIX®

Filter Lids™ Nylon Paint Filters

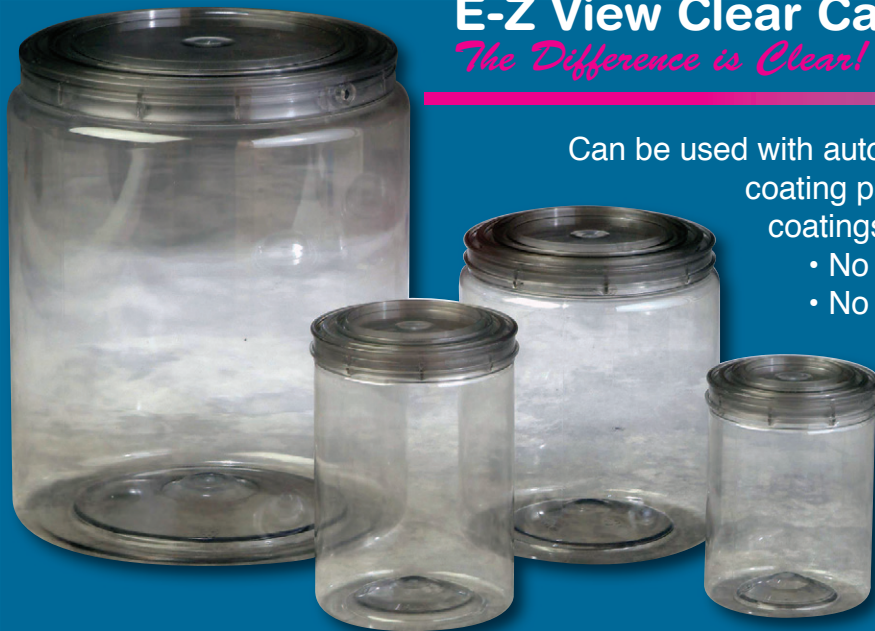

Clearly the better way to filter paint

- Molded Filter Construction - Nylon filter material is impregnated into plastic filter lids.
- 250 Micron Filter - Suitable for all primers, sealers, basecoats and clears
- Filter Lids™ - Have no paper fibers to contaminate your paint jobs, 100% lint free
- Snap & Pour Design - Desired levels of products are EZer to see.
- Uniform Filtration - There is no leak path as found in conventional strainers.
- Drip Resistant - Paper strainers are messy and leave paint drops everywhere.

#70032-F 100 per box

E-Z View Clear Masking Plastic 2400 ft. Roll

Clearly a better way

Airborne particles are attracted to Clear Masking Plastic not your finish. E-Z View Clear Masking Plastic is treated, so paint overspray sticks to it like glue!! Won't flake or blow off!

- Apply masking tape to desired area, saving time from double masking.
- During clean-up the amount of plastic can be compressed to a fraction of the amount of masking paper.

About

The E-Z Mix SX-SPRAY SUIT has been engineered to withstand limited chemical penetration and exposure from automotive spray painting. The material is a high densley woven fabric with polyester continuous multi-filament yarn interwoven with a Japanese electro-conductive yarn to ensure this garment is anti-static and conforming to STANDARD EN 1149-1.
