

1095 Mini Pull'r - Features and Benefits

- Designed to pull #1001 and #1002 studs
- Posi Cam firmly grips the stud until pressure is applied in the opposite direction, quickly releasing the locking cam
- Narrow design gives full view of pulling area
- T-Handle offers control grip on today's lightweight panels, allowing a better feel on the pull, eliminates over pulling
- For use with all Uni-Spotter stud welders

Available in the following packaging

- Available individually packaged
- Standard in Uni-Spotter Deluxe 9000 and Stinger 5500 stud welder kits
