

67 YEARS OF AMERICAN INGENUITY

3 GENERATIONS & COUNTING

Why is Hutchins Better?

Unlike imported sanders, Hutchins is an innovator in sanding technology. This means we constantly improve and re-design our sanders to offer the latest advances for performance, productivity and value. When you purchase a Hutchins sander, you will own it for your entire career. Only Hutchins offers a no-hassle, no strings attached flat rate repair program allowing you to keep sanding with your Hutchins sander long after the imported ones are thrown in the trash! Hutchins sanders may cost a little more initially because American made quality doesn't come cheap but in the long run, your Hutchins sander is built to make you money! After all, isn't that what it's all about?

PROFINISHER™ SANDERS

ProFinisher™ - Random Orbitals

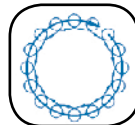

"For Aluminum Only" (Part No. 1529A) Composite red trigger available for newly purchased ProFinishers™ - Use it to alert your shop to use the sander only on Aluminum surfaces

ProFinisher™ Sanders by Hutchins offer cutting edge technology at an affordable price. All ProFinisher™ sanders are made in America and deliver performance you'd expect from Hutchins Manufacturing. All ProFinisher™ sanders can accommodate 5" or 6" sanding pads (except for 3" models).

ProFinisher™ 500 Series - 3/32 Offset

- Random Orbital sanders with a 3/32" offset are generally used for pre and post paint procedures.
- The fine orbit allows precise cut control and minimal scratch pattern.
- Preferred by painters world-wide, these sanders are the choice when sanding primers, topcoats or clears.

ProFinisher™ 600 Series - 3/16 Offset

- Random Orbital sanders with a 3/16" offset are generally used for all-around sanding tasks.
- Whether you plan to shape fillers & putties, feather-edge panels, or prep for paint, these sanders will perform a broad array of tasks.
- If your budget only allows for one sander, the 3/16" offset should be your choice.

Part No.	Pad Size/Type	Air Consumption at 90psi	Speed	Noise	Weight	Vacuum/Self-Gen.	Accessories Included	Vac Port OD
600	6" PSA	10.7 CFM	12,000 RPM	81 dBa	3lbs	No		No

ProFinisher™ Orbital Sanders

ProFinisher™ Sanders by Hutchins offer cutting edge technology at an affordable price. All ProFinisher™ sanders are made in America and deliver performance you'd expect from Hutchins Manufacturing.

Orbital Action Sanders are versatile and adapt to every surface preparation need. Developed in the early 50's, this style of sander still is preferred for marine, industrial, and automotive applications. Because the fixed pad orbits an offset counterweight, fast sanding and smooth finish results can be expected.

- 3/32" offset orbitals sanders are used mainly for pre & post paint operations and are generally used for wet sanding applications.
- Smaller rectangular orbit allows better sanding access for bumpers, recessed areas, and new panel prep.
- Sanders used standard 2 3/4" Velcro sandpaper rolls.
- Velcro pads securely hold scuff pads for easy new panel prep.

Part No.	Offset	Pad Size/Type	Air Consumption at 90psi	Speed	Noise	Weight	Vacuum/Self-Gen.	Accessories Included	Vac Port OD

LEGACY SANDERS

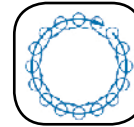

Random Orbital Sanders

Legacy Sanders by Hutchins are the product of 65 years of engineering know-how and a dedication to manufacturing the best sanders available. All Legacy Sanders are made in America and are designed to deliver exceptional performance for years of trouble-free service. All Legacy Random Orbital Sanders have built-in pad release buttons and can accommodate 5", 6", or 8" sanding pads.

Finishing Sanders - 3/32 Offset

- Legacy Random Orbit Sanders with a 3/32" offset are generally used for pre and post paint procedures.
- The fine orbit allows precise cut control and minimal scratch pattern.
- Available in conventional, vacuum or wet-sanding; these sanders are the choice when sanding primers, topcoats or clears in automotive, commercial or industrial applications.

Straightline Sanders

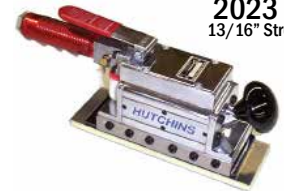

All Hutchins Straightline sanders have dual cylinders with a common piston and vertically-engaged, twin-drive gears. This double rack and pinion gear assembly gives twice normal gear contact for maximum balance, thrust and longevity.

2000
15/16" Stroke

2025
13/16" Stroke

2023

Legacy Orbital Sanders

Orbital Action Sanders are versatile and adapt to every surface preparation need. Developed in the early 50's, this style of sander still is preferred for marine, industrial, and automotive applications. Because the fixed pad orbits an offset counterweight, fast sanding and smooth finish results can be expected.

- 3/32" offset orbitals sanders are used mainly for pre & post paint operations and are generally used for wet sanding applications.
- 3/16" offset orbitals sanders are more aggressive and used for applications requiring fast material removal and super-flat surface finishes.

*Complete Dust bag and connector optional for 4932, 4932H, & 4932-4H

780

*For hook-type tools not listed, add "H" to the sander part number (i.e. 3800H comes with a hook-pad instead of PSA)

Legacy Rotary Sanders

Hutchins Rotary sanders offer reduced gear drive action to increase operator control and to control heat generation to lessen distortion.

- Rotary Sanders operate in a circular motion.
- Rotary sanders are generally used for shaping fillers and grinding metals and composites.
- Reduced gear rotary sanders are ideal for Aluminum Preparation.

Part No.	Pad Size/Type	Air Consumption at 90psi	Speed	Noise	Weight	Vacuum/Self-Gen.	Accessories Included	Vac Port OD
2001	8" PSA	16 CFM	1,750 RPM	86 dBa	5lb 14oz	No		No
2001-11H	11" Hook	16 CFM	1,750 RPM	86 dBa	7lb 3 oz	No		No
2006	6" Hook	11 CFM	1,750 RPM	82 dBa	4lb 3oz	No		No
4906	6" Hook 6-hole	11 CFM	1,750 RPM	85 dBa	6lb	Vacuum	1345-3	1 1/2"

Replacement Pads

Part No.	Description
5017	8" PSA Pad (Model 2001)
5017-11	11" PSA Pad (Model 2001-11)
5018	Vacuum, 8" PSA 8-12 hole Pad (4921 Series)
5018-11	Vacuum, 11" PSA 8-12 hole Pad (Model 4921-11)
5019	8" Hook Pad (Model 2001H)
5019-11	11" Hook Pad (Model 2001-11H)
5020	Vacuum, 8" Hook 8-12 hole Pad (Model 4921H)
5020-11	Vacuum, 11" Hook 8-12 hole Pad (Model 4921-11H)
5028H	Vacuum, 8" PSA 8 hole Pad (4906 only)
5108H	8" Hook Pad (2006 only)
5115	5" Hook Pad (2006 only)
5116	6" Hook Pad (2006 only)
5116V	Vacuum, 6" Hook 6- hole Pad (4906 only)

Accessories

Part No.	Description
1743	Exhaust Hose Assembly (4921 Series)
5021	8" Polishing Kit
5022	8" Polishing Pad
5861	Coaxial Hose for 4906, 4921, 4950, 4960

5017

5116

*For hook-type tools not listed, add "H" to the sander part number (i.e. 2001H comes with a hook-pad instead of PSA)

Speed Files

Long before pneumatic sanders made the scene; Autobody craftsmen were using Speed Files (hand boards) to guarantee a precisely shaped panel. Whether the desired effect is a gentle curve or a perfectly flat surface, Hutchins Speed Files offer the ultimate in comfort & control. Unlike cheap imitations, we use unfinished domestic hickory for our handles to eliminate hand blisters and splinters. Shaped for comfort; these Speed Files allow effortless sanding and outstanding results.

Anti-Static Airlines

Clear, crushproof, reinforced construction allows instant detection of airborne contamination. The anti-static design decreases electrical charge to improve metallic orientation for both solvent & water based paints. Reduces static charge and dust build-up on plastic parts and bumpers. The lightweight, durable design with a large inside diameter improves airflow for better spray gun and air tool operation.

Part No. 1361-3A-35 Anti-Static 3/8" Airline, 35' (Painters Hose)
Part No. 1361-3A-50 Anti-Static 3/8" Airline 50' (Shop Hose)

Part No.	Description
1361-3A-35	Anti-Static 3/8 th Airline - 35 Feet
1361-3A-50	Anti-Static 3/8 th Airline - 50 Feet

Operating pressure to 225 PSI

Operating temperature to 150F

Static Electricity, in the presence of *Aluminum* or *Magnesium* dust, can cause dangerous and possibly explosive results. The Hutchins Anti-Static Hose, when properly installed, can greatly reduce the risk of static electricity arcing. Please consult your local and State codes for recommended guidelines.

Vacuum Accessories

Accessories

Part No.	Description
780	Coaxial Hose Assembly for Sanders with Swivel Vacuum Connection
1352-PVN	Swivel Upgrade for Models 4920, 4932 & 4933
1350-4	Disposable Dust Bag Complete
5859	1" Coaxial Hose Assembly for Models: 3950, 3960, 3970 & 8970
5860	1 1/2" Coaxial Hose Assembly for Models: 4920, 4932 W/O SWIVELS (Prior to 2015)
5861	1 1/2" Coaxial Hose for Models: 4906, 4921, 4950 & 4960
5862	1 1/2" Coaxial Hose Assembly for Models: 8620, 8623-25, 8650 & 8660

Common Vacuum Terms

The term "VA" refers to Vacuum-Assist. Vacuum-Assist Sanders require an external vacuum source (i.e. portable vacuum system)

The term "Self-Gen" refers to Self-Generation. Self-Generation Sanders generate their own vacuum so they can be used alone or in conjunction with a vacuum system.
