

# SPEED DRY

WATERBORNE DRYING SYSTEM

## PRODUCT OVERVIEW:

- Fast dry times
- Cover large areas
- Effective with waterborne or solvent coatings
- Energy efficient – pennies a day to operate
- Compressor free – no maintenance
- Horizontal and vertical rotation
- Adjust up to 6' high
- Combine with infrared heater for up to 50% faster dry times than typical Venturi System
- Operate units together or independently – complete assembly can be plugged into one 15 amp outlet

## SPECIFICATIONS

PART NUMBER	MODEL	WIDTH	WATTS	VOLTS	AMPS	SHIPPING WEIGHT (LBS)
15-1000	SPEED DRY	24"	0	120	1	25
15-1015	SPEED DRY WITH HEATER	36"	1500	120	15	38

MODEL SPEED DRY

## DISCOVER COMPRESSOR-FREE CURING FOR WATERBORNE COATINGS.

Waterborne Systems for use with both waterborne and solvent coatings, offer rapid drying times and are a compressor-free alternative for the heavy air demand in most body shops. Infratech offers a standard four-position Speed Dry system and a Speed Dry and Heater combo unit for increased speed and versatility.

COVERAGE

Waterborne systems combine rapid drying times with a compressor-free curing alternative for the heavy air demand in most body shops.

EXCEPTIONAL SPEED

Infratech's exceptionally fast finish dry times are often one-quarter or more faster than air-drying. Infrared energy also requires little to no air-flow, thereby minimizing deposits of contaminants in a finish.

VERSATILITY

Waterborne products are ideal for use with both waterborne and solvent coatings.

**SPRING LOADED PIN FOR  
QUICK ADJUSTMENTS**

**LARGE CASTERS FOR  
ADDED MOBILITY**
