

#8108

8" DIAMOND FILE SET

4-Piece Set of Premium Industrial Files

The #8108 Diamond File Set includes the best contoured files available on the market today. These four abrasive, diamond-coated files (Half Round, Round, Flat and Square) are harder than traditional files, and can be used in any direction, cutting faster and smoother for a better finish.

- Many times harder than conventional files
- Cuts 10X faster and in all directions
- Cuts into welds and hardened surfaces where other files can't
- Smooth action
- 10" overall length with 8" blade

Custom Folding Pouch

For a dramatic demonstration, try cutting into a regular file using one of the diamond files. You will see first-hand that our files are superior in every way.
