

IRWIN®

Handsaws

IRWIN Universal Handsaw

The IRWIN® Universal Handsaw delivers performance and quality results that users demand on the jobsite. With a proprietary handle design, the angle in which force is exerted converts energy into full blade strokes, cutting through multiple materials. This specially-designed handle, combined with triple-ground teeth, reduces binding and cuts three times faster than traditional handsaws. The Universal Handsaw provides the speed of a coarse-cutting saw, and the fine finish of a fine-cutting saw. Designed for fast cuts, the universal handsaw is a jobsite staple.

1. Proprietary handle-to-blade angle for more natural motion, reduced cutting effort, and less binding
2. Triple Ground Teeth that cut on both the push and pull stroke to achieve coarse cut speed, fine cut finish, and ease of start
3. Lighter than traditional handsaws for less hand fatigue
4. Built-in 45° and 90° marking angles

HANDSAWS

Carpenter Saws	Typical User	Common Applications
	<ul style="list-style-type: none"> ▪ General Carpenter ▪ Exterior Trim Carpenter ▪ Remodeler 	<ul style="list-style-type: none"> ▪ General utility cuts ▪ Overhead fascia and gable work ▪ Removing door plates ▪ Drywall rough-in ▪ Tight cuts where power tools can't reach ▪ Making hand cuts in custom installations when the miter angle is greater than 55°

ProTouch™ Drywall/Jab Saw

2014100

Typical User:

Drywall Contractor, Electrician, Plumber, HVAC

Common Applications:

Roughing in drywall, cutting out HVAC and electrical openings, or cutting ceiling tile openings for light installation

- Thick-body blade
- Aggressive Tri-Ground™ teeth
- Ergonomic ProTouch handle

Standard Drywall/Jab Saw

2014102

Typical User:

Drywall Contractor, Electrician, Plumber, HVAC

Common Applications:

Roughing in drywall, cutting out HVAC and electrical openings, or cutting ceiling tile openings for light installation

- Rigid blade
- Bi-Ground teeth
- Hardwood handle

ProTouch Coping Saw

2014400

Typical User:

Interior Trim Contractor, Woodworker

Common Applications:

Cutting the curved profile on crown, base or chair rail moulding

- Flat-bar frame with 5-1/2" (140 mm) frame depth
- High speed steel blade
- DuraSteel™ pins
- Ergonomic ProTouch handle

ProTouch Dovetail/Jamb Saw

2014450

Typical User:

Tile Contractors, Remodelers

Common Applications:

Flush cutting door jambs and millwork for tile installation/prep

- Wide-body reversible flush-cut blade
- Spring-loaded pin enables blade to reverse for left or right cutting
- Ergonomic ProTouch handle

ProTouch Multi-Saw

2015100

Typical User:

MRO, General Contractors

Common Applications:

Quick and convenient cuts in PVC, wood or metal, and flush-cutting screws or other fasteners

- Includes both metal & wood blades
- Ergonomic handle is comfortable in multiple holding positions

Standard Utility Saw

2014200

Typical User:

Woodworker, General Contractors

Common Applications:

Cutting curves into wood, plywood or plasterboard

- Thick-body blade (1 mm)
- Aggressive tri-ground teeth
- Hardwood handle

Standard Utility Saw (Wood/Drywall)	11-1/2" (292 mm)	—	10 pt.	2014200

Pull Saw Advantages

Unlike traditional handsaws that cut with a push stroke, pull saws are designed with a micro-thin blade that cuts on the pull stroke. The thin blade and precision-ground teeth provide clean cuts. The pulling motion prevents binding and provides better control. Less weight, coupled with the natural pulling motion, results in less user fatigue.

Type of Saw	Typical User	Common Application
General Carpentry 	<ul style="list-style-type: none"> Interior Trim Contractors Exterior Trim Contractors Hardwood Flooring Contractors Traditional Woodworkers Cabinetmakers 	Woodworking <ul style="list-style-type: none"> Cutting hand-cut dovetails Creating miters on small millwork, such as shoe and quarter-round moulding Flush-cutting dowels Construction <ul style="list-style-type: none"> Flush-cutting shims and door casings Overhead fascia and gable work Making utility trim cuts on millwork and hardwood flooring
Double Edge 		

15" General Carpentry Saw

213100

Primary use — Aggressive cross-cutting

- Flexible blade for flush cuts
- User example: General Carpenter — cleaning out the 90° circular saw cut on a stair stringer and bird's mouth rafter cut

12" General Carpentry Saw

213101

Primary uses — Cross-cutting and ripping

- Flexible blade for flush cuts
- User example: Exterior Trim Carpenter — cutting the overhang of gable soffit

Extra Fine-Cut Saw

213102

Primary uses — Fine miter or hand dovetail cuts

- Spine provides support for more control
- User example: Woodworker — cutting hand dovetails for furniture assembly

Double Edge Saw

213103

Primary uses — Utility ripping and cross-cutting

- Flexible blade for flush cuts
- User example: General Carpenter — flush-cutting door shims and remodeling — cleanout of door casing prior to laying new floor tile

Dovetail/Detail Saw

213104

Primary uses — Flush-cutting dowels and fine detail cut

- Flexible blade for flush cuts
- User example: Interior Trim Carpenter — detail work around windows and door frames

Combi-Saw

218HP-300

Primary uses — Wood cutting and metal cutting

- User example: Landscaper — cutting small trees
- User example: General Contractor — cutting metal pipes
