

HP-35A, 35-TON HYDRAULIC PRESS

331431

JET's Hydraulic Shop Press line consists of a 5, 15 and 35 ton hydraulically powered H frame press. Each machine is built using heavy steel plate that is electro welded together, and comes standard with industrial grade hydraulics. These machines are for the serious fabrication and machine shop owner who demands only the best quality from his operation.

FEATURES

- Easy-to-use, hand-operated with pressure gauge for direct pressure readings
- Fast setup ram extension screw
- For pressing, bending, and straightening operations
- Ram moves laterally for added versatility (15- and 35-ton models)
- Side frames are open for inserting long material
- Straightness testing support uses centers or v-blocks on the 15 and 35 Ton models
- Two bed plates and pump handles
