

Tether 00 50

- > Wide working radius: flexible tether for user-friendly work
- > Variable fastening options: with strap made of a flat belt sewn to one end and a cord and cord stopper sewn into the other end

Adapter straps 00 50

- > Diverse options for fastening in combination with the carabiner and the tether
- > Permits fast, safeguarded switching from the fastener
- > On the tool bag to the tether and from one tool to another

Carabiners 00 50

- > With screw lock to prevent accidental opening
- > Safeguarded: catch to increase the tensile strength
- > Strong and light aluminium design weighing just 28 g

Tethering system set 00 50

- > Practical set includes:
 - > 1 x Tether
 - > 3 x Adapter strap
 - > 2 x Carabiner

Our KNIPEX Tool Tethering System

- ▶ Continuous protection possible when changing tools
- ▶ Individual configuration of the tool tethering system
- ▶ Also suitable for the KNIPEX screwdrivers

Advice: The KNIPEX tool tethering system is not suitable for use as personal protection equipment or for rock climbing.

KNIPEX Tethered Tools*

Flexible drop protection system for 45 models of KNIPEX pliers

Now also for VDE-tested pliers

T

- ▶ Falling tools can be prevented using KNIPEX Tethered Tools*
- ▶ Tool can be flexibly safeguarded and is therefore ready to hand at all times
- ▶ Versatile applications: can be used in building construction, wind turbines, roofing, road building, the events industry, excavation work, well construction, by industrial climbers and many other uses
- ▶ 16 models of insulated pliers and 29 models of pliers with multi-component grips available with fall protection (others on request)
- ▶ Also suitable for our wide range of VDE-tested screwdrivers

	00 50 03 T BK	2 x carabiners, screw lock screw tight prevents the material snap hook opening unintentionally	<input type="checkbox"/>
	00 50 04 T BK	Tethering system set, for versatile ways of attaching KNIPEX pliers to a tether attachment (1 x tether 3 x adapter straps, 2 x carabiner)	<input type="checkbox"/>

► Our tool securing system is also suitable for our wide range of VDE-tested screwdrivers

The through hole on the handle of all KNIPEX screwdrivers permits connection to our tool securing system, illustrated here by way of example on the handle of our new KNIPEX "Slim" screwdriver for PlusMinus profile screws.

Rely only on high-grade pliers offered on our virtual shelves.
