

# Self-Leveling Combination Cross-Line/Point Laser

Model SK103PZ

## All-In-One Solution

### VERSATILITY

All-in-one solution combination laser provides all possible reference lines and points

### ACCURACY

Achieve the accuracy of a pro with line and point accuracy of +/- 1/8" error rate at 30'

### CAPACITY

Extended laser line fan length spans well past 90° point position

### DURABILITY

Integrated Pendulum Lock offers added protection of laser diode during transport and storage

## FEATURES

- Provides all possible reference lines required in leveling, aligning, plumbing, and squaring applications for maximum versatility
- Line visibility range up to 50' and Point visibility range up to 100' depending on ambient light in working environment
- Fast self-leveling time; stability is achieved in 3 seconds for increased productivity
- Self-leveling is correctable up to +/- 4° of slope allowing operation on uneven surfaces
- Bright 635 nm class II laser for best-in-class visibility in moderate ambient light environment
- Laser line fan length spans well past 90° point position to provide 180° horizontal line and 120° vertical line for full reference line coverage in demanding applications
- Integrated pendulum lock enables slope incline applications for increased versatility

## SPECIFICATIONS

Product depth	4.37 in.
Product height	4.6 in.
Net weight	1.04 lbs.
Shipping weight	2.25 lbs.
UPC code	088381-691116

## STANDARD EQUIPMENT

- Magnetic bracket
- Target card
- (4) AA batteries
- Carrying pouch
