

New M18 SAWZALL® Recip Saw Delivers Unmatched Durability, Speed & Runtime

MILWAUKEE, WI –Milwaukee Tool continues to revolutionize the reciprocating saw category with a new cordless M18 SAWZALL® Recip Saw that offers unmatched durability, speed and runtime.

“Nothing on the market cuts faster or lasts longer than the Milwaukee SAWZALL, and we will continue to take it to another level and lead the industry by offering innovative solutions that increase user productivity,” says Christian Coulis, Director of Marketing for Milwaukee Tool. “Other than the M18 FUEL SAWZALL that launched last year, no other cordless recip saw even comes close in cut speed and run time. We are proud to offer best in class solutions in both the brushed and brushless categories.”

Featuring a new in-line cutting action that provides more control and faster starts in metal, the new cordless SAWZALL® is designed to make up to 30% faster cuts in key applications, and will deliver up to 50% more cuts per charge than competitive cordless recip saws. To reinforce the legendary durability and performance that has made the MILWAUKEE® SAWZALL® the industry leader for over 50 years, the new model maintains an electronic overload protection for the motor and battery pack, and features a robust, all-metal gear case and gearing.

For added user convenience, the QUIK-LOK™ blade clamp provides quick and efficient blade changes while the variable speed trigger optimizes speed for different applications. With a slim front design and improved ergonomics, the saw is designed for maximum control and comfort.

Powered by any Milwaukee M18™ LITHIUM-ION battery, the new SAWZALL Recip Saw is compatible with the entire M18™ System, now offering over 70 cordless Lithium-Ion products. Milwaukee® is committed to the ongoing development of this platform and will continue to provide innovative solutions that offer industry leading reliability, performance and ergonomics.

Specifications

M18 Sawzall® Recip Saw (2621-22)- Replacing current 2620

- Length: 19"
- Weight: 8.9lbs
- Speed: 0-3,000 SPM

Includes M18 Sawzall® Recip Saw, (2) M18™ REDLITHIUM™ XC Extended Capacity Battery Packs, (1) Multi-Voltage Charger & carrying case.

*Also available with one battery (2621-21) and as a bare tool (2621-20)
