

Milwaukee® Upgrades M12™ Drilling and Fastening Products

MILWAUKEE, WI – Milwaukee Tool continues to strive for and deliver best in class solutions with upgrades to several key M12™ Drilling and Fastening products. Featuring increased performance and improved ergonomics, Milwaukee will introduce six new drilling and fastening models this year, four of which will begin a transition to replace existing models on the market today.

“Since the introduction of the M12™ Cordless system in 2007, Milwaukee has delivered a full line of best-in-class drilling and fastening products that have helped establish M12™ as the #1 sub -compact system in the industry,” said Tom Simeone, Group Product Manager, Milwaukee Tool. “At Milwaukee, the phrase “good enough” doesn’t exist in our vocabulary...we will maintain leadership within this category by both continually looking for ways to improve on existing products and launching new-to-world solutions that increase productivity.”

The M12™ Drilling and Fastening Product Upgrade will set a new standard for performance and portability. For example, the 2462 M12™ 1/4" Hex Impact Driver will feature a new Milwaukee® optimized mechanism which delivers 1,000 in-lbs of torque and increases driving speed by up to 50%, making it faster, more powerful and longer running than any of its competitors.

The new tools will also feature upgraded ergonomics with narrow, soft contoured grips for maximum comfort during prolonged use, and an all metal reversible belt clip to quickly and easily hang the tool. Additionally, Milwaukee will continue to deliver the most durable products within this category. Milwaukee will maintain its place in the market as the only major power tool manufacturer to feature all metal chucks on their 12V drill/drivers and hammer drill /drivers. The tools will also continue to feature the best electronics in the industry, REDLINK™ INTELLIGENCE, for increase protection in abusive situations. All tools will be backed by a 5-year warranty.

The new tools are compatible with the entire M12™ System, now offering over 50 cordless Lithium-Ion products. The M12™ platform is the largest sub-compact system in the industry, offering innovative solutions in power, productivity and portability.

Specifications:

M12™ 3/8" Drill/Driver (2407-22): Replacing 2410

- 275 in-lbs of Torque
- 2-Speed Gear Box (0-400/0-1500 RPM)
- 3/8" Max Capacity
- 7-3/8" long
- 2.5 lbs w/ battery

Includes M12™ 3/8" Drill/Driver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2407-20)

M12™ 3/8" Hammer Drill/Driver (2408-22): Replacing 2411

- 275 in-lbs of Torque
- 2-Speed Gear Box with Hammer Function (0-400/0-1500 RPM)
- 3/8" Max Capacity
- 7-1/2" long
- 2.7 lbs w/ battery

Includes M12™ 3/8" Hammer Drill/Driver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2408-20)

M12™ 1/4" Hex Screwdriver (2406-22): Additional Model, WILL NOT Replace 2401

- 275 in-lbs of Torque
- 2-Speed Gear Box (0-400/0-1500 RPM)
- 19+1 Clutch Settings
- 1/4" Hex Quick Change
- 6-3/4"
- 2.2 lbs w/ battery

Includes M12™ 1/4" Hex Screwdriver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2406-20)

M12™ 1/4" Hex Impact Driver (2462-22): Replacing 2450

- 1,000 in-lbs of Torque
- 0-2500 RPM
- 0-3300 IPM
- 6-1/2"
- 2.3 lbs w/ battery

Includes M12™ 1/4" Hex Impact Driver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2462-20)

M12™ 3/8" Impact Wrench (2463-22): Replacing 2451

- 1,200 in-lbs/ 100 ft-lbs of Torque
- 0-2500 RPM
- 3/8" Anvil w/friction ring
- 6-1/2" long
- 2.3 lbs w/ battery

Includes M12™ 3/8" Impact Wrench, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2463-20)

M12™ 1/4" Impact Wrench (2461-22) : Incremental Model- October 2013 Launch

- 450 in-lbs of Torque for maximum control over small fasteners
- 1/4" Anvil w/friction ring
- 0-2500 RPM
- 6"
- 2.1 pounds

Includes M12™ 1/4" Impact Wrench, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2461-20)

Milwaukee® Launches New and Improved M18™ Compact Drilling and Fastening Tools

MILWAUKEE, WI – Milwaukee Tool continues to strive for and deliver best in class solutions—with the launch of six new M18™ Compact Drilling and Fastening products. Featuring improved performance, features and ergonomics, Milwaukee® will introduce two new compact drills and four new compact impact drivers/wrenches this year, all of which will begin a transition to replace existing models on the market today.

The new models will include the **M18™ 1/2" Compact Drill/Driver (2606)**, **M18™ 1/2" Compact Hammer Drill/Driver (2607)**, **M18™ 1/4" Hex Two-Speed Compact Impact Driver (2657)**, **M18™ 1/4" Hex Compact Impact Driver (2656)**, **M18™ 3/8" Compact Impact Wrench (2658)** and **M18™ 1/2" Compact Impact Wrench (2659)**.

"Since launching in 2007 and 2008, the 2601-22 and 2650-22 have been the most successful cordless drill and impact driver in Milwaukee® company history, leading the charge in the M18™ System's rise as the fastest growing 18V system in the world," says Mike Monteleone, Product Manager for Milwaukee Tool Corporation. "The 18V Compact Drilling and Fastening category has long been the largest and most competitive segment in professional power tools, and we will maintain leadership within this category with a dedication to delivering best-in-class solutions."

The new products are the most compact tools in their respective classes, featuring improved ergonomics for greater accessibility into tight work areas. In addition, the tools have best-in-class power to weight ratios, delivering more power under load, more output torque, and increased speed for faster drilling and fastening.

With the durability users have come to expect from Milwaukee, the new Drill Drivers and Impacts offer advanced electronics through Milwaukee's REDLINK™ INTELLIGENCE. This system provides advanced overload protection in abusive situations and improved temperature management to maximize tool life and protect the user's investment.

The new M18™ 1/2" Compact Drill/Driver (2606) and M18™ 1/2" Compact Hammer Drill/Driver (2607) are also the only tools in their respective classes that feature an all-metal gear case and all-metal ratcheting chuck for impact resistance and maximum durability.

The new M18™ 1/4" Hex Compact 2-Speed Impact Driver (2657) is the first tool in its class to give users the option to choose between two fastening modes for increased versatility. With Milwaukee's proprietary 2-Mode DRIVE CONTROL™ feature, users are able to maximize productivity on the jobsite with optimized speed and power for the application at hand.

The new tools are compatible with the entire M18™ System, now offering over 50 cordless Lithium-Ion products. Milwaukee® is committed to the ongoing development of this platform and will continue to provide innovative solutions that offer industry leading reliability, performance and ergonomics.

Specifications:

M18™ 1/2" Compact Drill/Driver (2606-22CT): Replacing 2601-22, beginning Oct 2013

- 500 in-lbs of Peak Torque
- 2-Speed Gear Box (0-400/0-1,800 RPM)
- 1/2" All-Metal Ratcheting Chuck
- 7-1/4" long
- 3.8 lbs w/ battery

Includes M18™ 1/2" Drill/Driver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2606-20)

M18™ 1/2" Compact Hammer Drill/Driver (2607-22): Replacing 2602, beginning Jan 2014

- 525 in-lbs of Peak Torque
- 2-Speed Gear Box (0-400/0-1,800 RPM)
- 0-28,800 BPM
- 1/2" All-Metal Ratcheting Chuck
- 7-3/4" long
- 4.5 lbs w/ XC battery & 3.9lbs with compact battery

Includes M18™ 1/2" Hammer Drill/Driver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available with 2 compact batteries (2607-22CT) or as bare tool (2607-20)

M18™ 1/4" Hex Two-Speed Impact Driver (2657-22CT): Replacing 2650-21, beginning Nov 2013

- 1,500 in-lbs of Fastening Torque (Mode 2)
- 600 in-lbs of Fastenign Torque (Mode 1)
- 2-Mode DRIVE CONTROL™
- 0-2,750 RPM
- 0-3,450 IPM
- 1/4" Hex Quick Change Chuck
- 5-1/2"
- 3.1 lbs w/ compact battery

Includes M18™ 1/4" Hex Impact Driver, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2657-20)

M18™ 1/4" Hex Compact Impact Driver (2656-20): Incremental SKU, beginning Nov 2013

- 1,500 in-lbs of Torque
- 0-2,750 RPM
- 0-3,450 IPM
- 1/4" Hex Quick Change
- 5-1/2"
- 3.1 lbs w/ compact battery

Includes M12™ 1/4" Hex Impact Driver

M18™ 3/8" Compact Impact Wrench (2658-22): Replacing 2651, beginning Nov 2013

- 167 ft-lbs of Torque
- 0-2,450 RPM
- 0-3,350 IPM
- 3/8" Anvil w/friction ring
- 5-3/4" long
- 4.1 lbs w/ battery

Includes M18™ 3/8" Impact Wrench, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2658-20)

M18™ 1/2" Compact Impact Wrench (2659-22) : Replacing 2652, beginning Nov 2013

- 183 ft-lbs of Torque
- 1/4" Anvil w/friction ring
- 0-2,450 RPM
- 0-3,350 IPM
- 5-3/4"
- 4.1 pounds

Includes M18™ 1/2" Impact Wrench, (2) RED LITHIUM™ Batteries, Charger & Carrying Case

*Also available in Bare Tool (2659-20)
