

POSITIVELY POSITIVE.

Super Tab-Lok's push-button locking mechanism provides a positive lock every time. Applications that require applied pressure such as sanding and scraping are its forte.

★★★★★ CUSTOMER REVIEW

"This is my second Mr. Long Arm. The first one is still going strong . . . I'd rate this extension pole a top pick. Always easy to use, great balance, very strong. Can't get much better than this."
— A.C.

SUPER TAB-LOK® EXTENSION POLES
