NEW PRODUCT

Owens Fusion RUNNING BOARD

Textured Powder Coat - Black

Textured Powder Coat - Nickel

This step combines elements of our past with visions of our future.

New for 2016 this is undoubtedly the strongest step we have ever offered.

A full 5-3/4" stepping surface with 4" x 20" TPO suregrip step pads strategically placed right where you need them for easy entry into your vehicle.

Fusion Steps are available in your choice of textured black or textured nickel powder coat finishes that will never rust.

Plastic bracket covers are included to give you that "factory installed" look.

NEW SERIES!

The strongest step
Owens has ever made!
Check out the Fusion for
serious durability.

TranSender™ RUNNING BOARDS

Extremely versatile,
extremely durable,
and extreme styling!

TPO FACTORY STYLE

ALUMINUM EXTRUDED

TPO ROUNDED STYLE

Available in four distinctive styles to enhance the appearance and value of your vehicle.

Factory style, molded TPO plastic.

Rounded Style TPO molded plastic.

Bright or smooth aluminum with molded end caps and step tread.

Each style offers several lengths (40", 54", 60", 64" 69" 75" 80" 86" 90") to cover a multitude of applications. Custom fit or universal brackets are sold separately.

All molded boards are reinforced with a full step length galvanized steel support for superior strength.

Custom brackets require no drilling into vehicle when body mount holes are provided. Brackets are sold separately.

The factory style boards are made from TPO - the OE approved material. Step tread is not necessary as the material has extra grip.

Owens Factory Boards™

Custom TPO Factory Look Running Boards

TPO FACTORY STYLE

TPO FACTORY STYLE

TPO WITH SAFETY YELLOW PAINT

* SAFETY YELLOW PAINT IS OPTIONAL

Owens Factory Boards (OFB) are manufactured from thermoplastic polyolefin, TPO, which is the material demanded by OEs.

OFB offers a true factory look at a fraction of the cost.

TPO is a durable plastic that holds up in extreme temperatures and weather.

The material offers grip so step tread is not necessary.

These boards are UV protected and do not require painting.

Brackets feature no drilling into the vehicle when body mount holes are provided.

Owens Factory Boards offer the best in materials and workmanship available for automotive aftermarket running boards.

Heavy-duty, galvanized brackets are custom designed for each application.

Popular van applications available with extra-wide passenger-side entry step.

Custom Fiberglass Running Boards

FIBERGLASS BOARD

Dense layers of premium grade fiberglass feature a quality primer gelcoat finish.

Deluxe extra-wide, non-slip step treads provide year-round security.

All applications are available with Owens Precise Paint Program.

Available in a wide selection of CUV, SUV, pickup and van applications.

Steel-reinforced mounting plates provide secure fastening.

Applications sculpted to complement the unique contour of every vehicle.

Custom-fit bracketry for fast, easy installation and secure mounting.

GlaStep offers the best custom-made fiberglass boards in the market.

GlaStep-Plus feature both cab and box boards for popular truck applications.

Owens Commercial Boards

STARBURST GRIP

WELDED CAP ENDS

Aluminum boards are constructed of .100 diamond tread with a 4" riser for heavy use and are offered with your choice of either welded end caps or bolt on stone guards and end caps.

Welded end cap applications are great for vehicles with large fender flares or other obstructions in the wheel well.

Both styles of aluminum boards are available with optional "star burst grip", delivering aggressive sure-footing to this board.

Custom brackets are designed for each application giving the boards superior strength as well as fast and easy installation.

The OCB line of running boards is perfect for fleet, construction and municipal jobs.

Heavy-duty boards perform day after day on the job.

Owens Jeep Performance

The Venom Hood is an industry leading heat extraction hood specifically designed for the 2007 – 2016 Jeep Wrangler two door and four door models.

It is a full functioning heat extraction hood ready to transform your Jeep into the aggressive style you have been looking for.

The Venom Hood is nearly 50% lighter than your factory steel hood and will keep a solid structure for rock crawling and off-road use.

Each hood is hand crafted here in the USA, with pride. You will see for yourself how our craftsmanship and fitment, as well as the overall quality of the hoods, are second to none.

All hoods are backed by our three year 36,000 mile warranty against defects in manufacturing and materials.

Let your engine breath and make your statement with the Owens Jeep Performance Venom Hood!

For the more cost conscious consumers we offer the aluminum louvered plate to attach to your factory hood. It is available in mill finish or textured black powder coat finishes.

Owens Jeep tool boxes offer added security of keeping your valuables safe while you are enjoying the open-air feeling of having your roof and/or doors removed.

Fusion Steps are strong and durable as well as adding ease of entry to your stock or lifted vehicle.

Watch for more items to be introduced as the year goes on!

Owens K-9 Containment

Built FOR COPS by A COP!

Inserts Feature:

Double wall constructed lower front panel made from Heavy Duty .125 mill finished material w/ .090 inner wall.

Front & Rear panels have 1" diameter holes throughout giving you Maximum Vision and to keep your K-9 companion from reaching/chewing your seats, seat belts, equipment, etc.

Front sliding door has an Industry First stainless steel latching handle for quick and easy opening and closing.

Front & Rear finish panels are constructed of mill finish aluminum punched with holes for visibility.

Rear panel built from .125 heavy duty mill finished aluminum.

Roof canopy, door panels and window enclosures constructed of .090 mill finish aluminum.

Floor pan formed out of Heavy Duty .125 mill finished aluminum that extends from Door to Door with no gaps for your K-9 partner to get feet or legs trapped in.

All units come standard in Textured Black powder coat finish and include ½" thick Non Slip rubber floor mat.

Designed with input from current K9 Officers to be the BEST unit you will ever own!

Collapsible Crates Feature:

Heavy Duty .063 Mill Finish aluminum construction available in your choice of textured gray or textured tan powder coat finish.

Double wall constructed door with 3 point lockable latching system and stainless steel folding T-Handle.

Additional hasp so you can secure with your own padlock.

Two spring loaded carrying handles on top (for when K-9 is inside) and one spring loaded carrying handle on side (for when crate is collapsed).

Sets up and tares down quickly and easily for transportation.

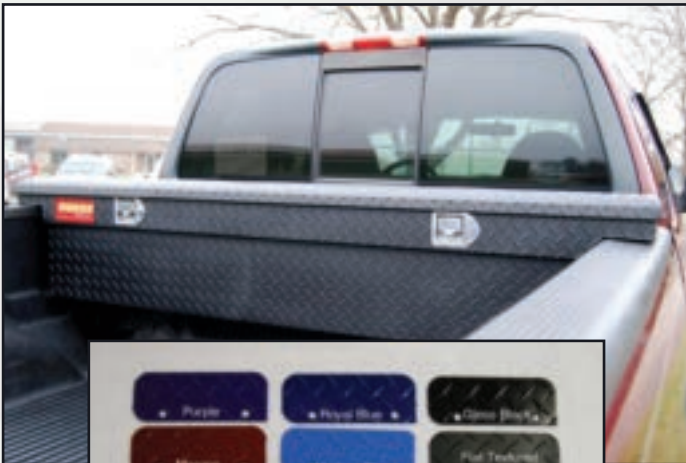

Police & Military Working Dog Containment

FOLDED BOX

Tool Boxes

Garrison Series™

Paddle latch tool boxes are built to last!

Garrison Series tool boxes are available in a variety of models: Single lid crossover, side mount, RV and utility chests, trailer tongue, topsider, underbody and more.

0.63 diamond tread aluminum is formed in a three piece basket design with fully welded seams making these boxes dependable and durable.

Premium closed cell PVC gasket keeps the inside safe from inclement weather.

Our best-selling series of tool boxes.

Ellipse Series™ and Ellipse XPL Series™

This is not your grandfather's tool box!

Ellipse & Ellipse XPL boxes feature the Owens Exclusive patented lid (U.S. patent no. D597019) with a distinctive curve design that is tough and sure to drive the competition wild!

Advanced lid bracing, along with the curved lid design, gives these boxes exceptional strength.

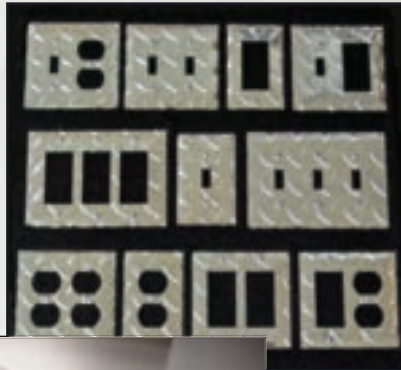

Ellipse Series features a push button rotary latch system while the Ellipse XPL has stainless steel paddle handles.

Available in: Single lid crossover, side mount, RV and utility chests as well as trailer tongue styles.

All boxes available in bright diamond or textured black powder coat (standard) or mix and match lid and body colors in any of our other 15+ colors available.

RaceMates™ & Hunting Dog Boxes

RaceMates:

Made of strong, heavy gauge aluminum for long lasting dependability.

Space saving designs will make the most out of your limited storage area.

Most RaceMates are available in smooth or diamond plate aluminum finishes.

Perfect for utilizing storage space in your garage, motorcycle, snowmobile or race trailer.

Organize, store and safely transport oils, chemicals, fuel and cleaning fluids.

Diamond plate trash cans and light switch covers look great in the Man Cave!

Custom colors also available.

Owens Hunter & Pro Hunter Series Dog Boxes:

Heavy duty .063 diamond plate construction built to meet the high demands of the professional hunter at a price point the weekend hunter can afford.

Owens Products boxes are available with no storage, top storage and bottom storage versions, as well as single, double and triple compartments. Owens Products has a box for every need. We even offer a do-it-yourself (DIY) kit for the price conscious hunter.

All boxes are proudly built in the USA.
