Glossary of Terms & Definitions

Baby Moon/Pop-In Usually associated with hub covers for the front aluminum wheel.

- **Smooth** A hub cover that is a one piece, with no logo indentation.
- **Emblem** A hub cover that is a one piece, with logo indentation.
- **Open** A hub cover that is a one piece, with an open center area.

Bolt Circle (BC) The measurement between the stud center to the opposite side stud circle center.

“Clocking” a wheel/liner The process of rotating a wheel or wheel liner in order to line up hand holes, valve stem, and to ensure proper fit, etc.

DOT-Liner® A Simulator that mechanically attaches to the wheel. Does not require the removal of the lugnuts for installation.

Dual Wheel Two wheels are attached to the hub of the vehicle.

Flotation Wheel/Duplex Wheel/Super-Single Wheel 22.5” wide base wheels that are over 9” wide and have a recessed center.

Hand hole (HH) The openings on a wheel or wheel liner.

• **Round**

• **Oval**

Hub cover A cover for only the center hub.

Hub piloted The wheel is “centered” or located into the proper location by the hub of the vehicle. The lugnuts on this type of application are usually black with a flat “swivel” washer on the bottom end.

Jamnut A hex head nut used to mechanically attach a DOTLiner.

Jamnut cover A cover that fits over the top of a jamnut for cosmetic purposes.

Liner/Wheel Simulator A cover for a wheel (normally a steel wheel) that gives the appearance of a chrome or polished aluminum wheel. Wheel simulators are usually made from stainless steel.

Lugnut A nut used to thread on a stud for attaching the wheel to the axle.

Pop-In Usually associated with hub covers for the front aluminum wheel. **(see also “Baby Moon”)**

Quick-Liner® A Simulator that attaches to the wheel using a friction fit and/or clips. Does not require the removal of the lugnuts or any tools for installation.

Quick-Cover® A Simulator that attaches to the wheel using a ring mount system and does not require the removal of the lugnuts for installation.

Single wheel A single (one) wheel is attached to the hub of the vehicle.

Stud A threaded bolt used to thread a lugnut.

Stud extender A tube that is threaded on the inside and outside used to “extend” the OEM stud length to be able to attach the DOTLiner® wheel simulator.

Stud hole The opening through which the stud will protrude thru the wheel.

Stud piloted The wheel is “centered” or located into the proper location by the lugnuts. The lugnuts are usually tapered on one end and flat on the opposite end. Sometimes referred to as a “Ball Seat Wheel.”

Tandem axle A pair of axles spaced close together.

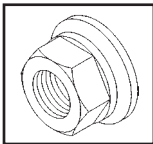

Uni-Liner® A Simulator that mechanically attaches to the wheel and does require the removal of the lugnuts for a universal fit to wheel.

Wheel Simulator/Liner A cover for a wheel (normally a steel wheel) that gives the appearance of a chrome or polished aluminum wheel. Wheel simulators are usually made from stainless steel.

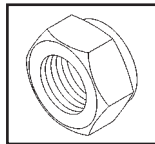

Information you will need to determine the right simulator:

1. Find the wheel # at the location shown on Figure 1 to the right. Wheel #'s are usually used for larger size wheels.
2. Find the wheel diameter at the location shown on Figure 1 to the right.
3. Count the number of lugnuts.
4. Note the shape of the lugnuts:

HUB PILOTED

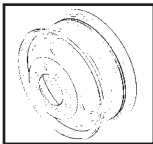

STUD PILOTED

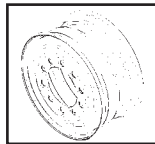

5. Note the type of wheel:

DUAL WHEEL

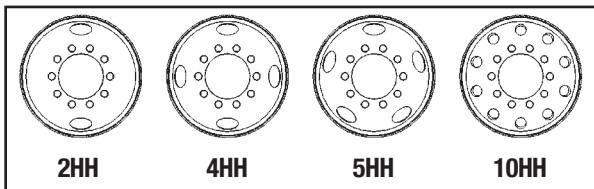

DUPLEX WHEEL

6. If you have dual wheels, count the number of hand holes on your wheel.

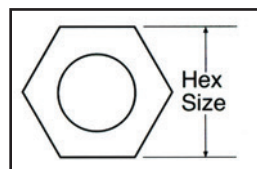

HAND HOLES

7. Note the hex size of the lugnuts.

Hub Pilot

30mm (1 3/16")
 32mm (1 1/4")
 33mm (1 5/16")
 38mm (1 1/2")

Stud Pilot

1.5"
 1.75"
 41mm (1 5/8")

8. Some mounting styles require at least 3 threads of the stud protruding through the top of the lugnut for stud extenders.

About Our Simulators:

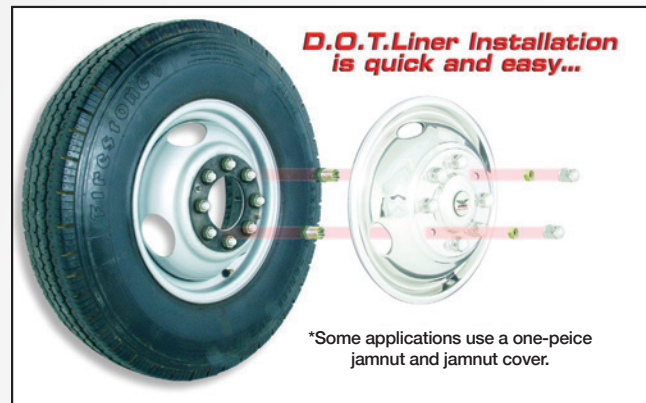

Wheel simulators are often used to cover a less attractive OEM steel wheel and improve the overall appearance of the vehicle by giving it more style. All Phoenix[®] USA, Inc. wheel simulators have been designed to fit a specific manufacturer's wheel. Always select a wheel simulator designed to fit your particular vehicle.

Wheel simulators must be installed carefully. Phoenix[®] USA, Inc. offers a variety of mounting styles described below. Depending on your vehicle year and make along with specific OEM wheel designs, mounting styles will vary from simulator to simulator. All simulators should fit flush to the OEM steel wheel and have no excess overhang. If your simulator does not firmly seat all the way around, do not drive with it.

D.O.T.Liner[®]

Bolts on without removing the wheel lugnuts

- Does not violate chassis manufacturer's warranty
- Mirror polished stainless steel for lasting beauty and durability
- Pop-out centers for 4WD hubs
- Protective rolled edge for strength and handling safety
- Secure bolt-on installation

QuickLiner[®]

Secure snap-on mounting provides quick and easy installation

- No lugnut removal required.
- Mirror polished stainless steel for lasting beauty and durability
- Protective rolled edge for strength and handling safety

QuickCover®

Universal, no lug removal, ring mount

- For 17.5", 19.5" and 22.5" wheels.
- Rear valve extension included for easy air inflation and pressure checks.
- Made from highly polished, durable stainless steel
- Offers easy access to Stemco® oil seals (19.5" & 22.5").

UniLiner®

Universal under-lug mounting

- Fits most 16" and 16.5" dual wheel trucks
- Mirror polished stainless steel for lasting beauty and durability
- Protective rolled edge for strength and handling safety
- Secure bolt-on installation

CustomLiner®

Under-lug mounting with excellent fit

- Protective rolled edge for strength and handling safety
- Mirror polished stainless steel for lasting beauty and durability

Valve stem extenders take the hassle out of inflating and checking the air pressure of dual tires. Inflation kits let you easily check air pressure and inflate your vehicle's dually tires by relocating the inner tire's valve stem to the outer wheel and extends the valve stem on the outer tire. Kits are designed to be used with steel or aluminum wheels with wheel liners. All necessary hardware is included.

Outer Dual Valve Stem Extensions

AP3

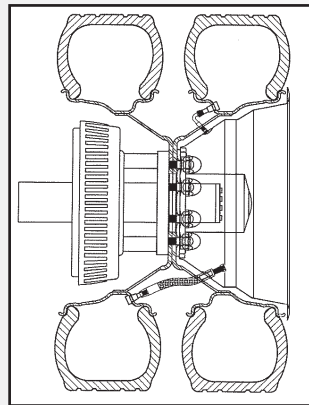

Pair of outer valve stem extensions made of tough stainless steel for durability.

AirPlus®

Two Hose Inner Dual Valve Stem Extension & Stabilizer Kits

- Rugged braided stainless steel hoses
- One pair of extensions with stabilizers
- Quick and easy installation
- Makes checking and filling air easier
- Ideal for any brand of wheel simulators
- Live stem hoses

AP4

Kit fits all light duty wheels with oval hand holes.

AP6

Kit fits '99-C Ford F-450 and F-550, '08-C Ram 4500 & 5500.

AP5

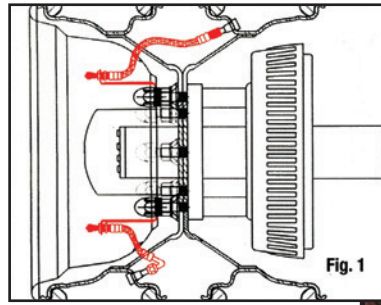

Kit fits '92-'07 Ford E-350 and E-450 dual wheel with round hand holes.

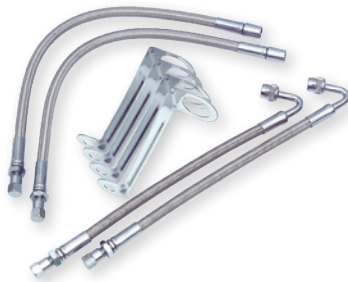

Four Hose Valve Stem Extensions With Heavy Duty Brackets

- Braided stainless steel valve extensions for use with DOTLiner® dual wheel simulator kits
- Kits include four hoses and four brackets to provide easy air fill access to inner and outer tires.

NOTE: Use AMH1 with import D.O.T. applications (except N6695).

AML1

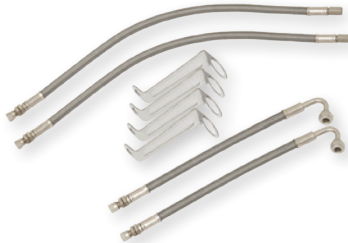

Four hose kit with brackets for most dual wheels with lugnut hex of 1 1/16" and smaller. Fits part #s NF10, NF12, NF98, GD816, GDG92, GDG01, GDF16, GDF17, ND20, NDT165, NFS156.

AMG1

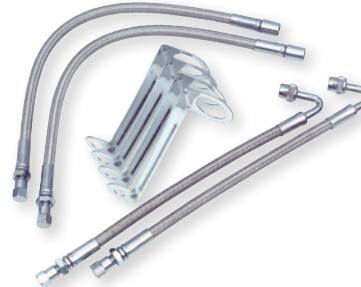

Four hose kit with brackets for '03-'10 Chevy/GMC C4500 - C6500 with 19.5" 8Lug wheel.

AML2

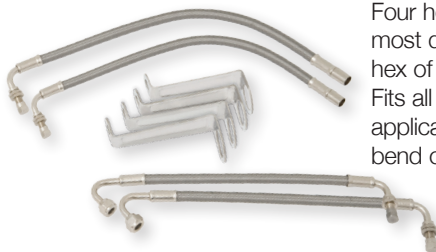

Four hose kit with brackets for part #s NF19, NF22, NF23, NF25, NG961, NG17, NG18, ND1912.

AMH1

Four hose kit with brackets for most dual wheels with lugnut hex of 1 3/16" and larger. Fits part #s N252, N552, NH252, NH552, NH8495, NH5092, N6664, N6670.

AML3

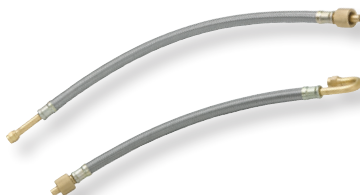

Four hose kit with brackets for most dual wheels with lugnut hex of 1 1/16" and smaller. Fits all AML1 and AML2 applications but adds a 90° bend on male end of extension.

AMM2

Four hose kit with brackets for N6695, N6664, N6559, N6670, N6681.

Replacement Hoses

- 2500 PSI burst strength
- Fit most major constant air pressure systems
- 8 strand braided steel
- Reduced chance of trapped debris
- Double crimped
- Brass knurling and valves

TRAILER PRODUCTS - ENGINEERED BY ENTHUSIASTS!

Tough + Durable + Functional.

Tough + Durable + Functional.

A Storage Cabinet
with Folding Work Tray
SP30CSA - Mill Finish Aluminum
with mirror polished door
Dimensions: 30"H x 25.5"W x 9"D

Every shop and trailer needs additional, secure, organized storage, and this cabinet provides it. Space for oil, transmission fluid, cleaners, lubricants and even a spring loaded paper towel holder that prevents unrolling. A fold down tray that rides on nylon bushings for quiet, dependable service is perfect for cleaning and repairing small parts.

B Button Kit
SP25BK 2.5mm
SP30BK 3.0mm (used for SP45HFTA only)

Set of 4 mounting buttons and screws allow your Tow-Rax® product to be used in a variety of locations: garage to trailer and back again, as well as inside and outside your trailer. The location possibilities are endless.

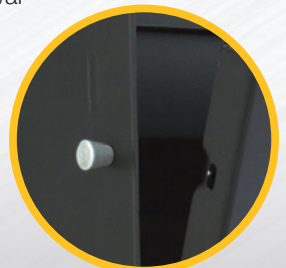

C Key Punch Bracket Kit
SPKPB
Dimensions: 4"H x 2"W x 1"D

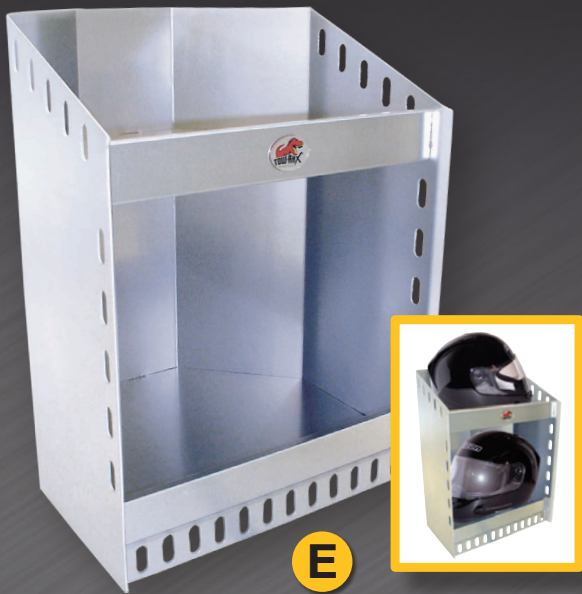

Make your favorite Tow-Rax® cabinet mobile by adding brackets to cabinets. Mount button kits in your preferred locations and you're ready to go.

D Junior Storage Cabinet
with Folding Work Tray
SPJCA
Dimensions: 22"H x 13"W x 6"D

Mill finish aluminum, button-mount Junior Storage Cabinet with folding work tray provides two levels of storage for one-quart oil and aerosol cans, a paper towel holder and a fold down work tray. Two key hole button mounting kits included for easy removal and multiple location use.

All Tow-Rax® cabinet doors include our latch which does not require a pull of the pin to close. Hands free, shut-and-go convenience from the engineers at Tow-Rax®!!!

H

E Corner Helmet Shelf
SPCHH

Dimensions: 12"H x 14"W x 15.5"D

Mill finish aluminum shelf fits in a corner and offers the ability to store two helmets while utilizing as little wall space as possible. Secure helmets, gloves and hang clothing with convenience and ease.

F Tubular Gear Rack
SP48HR

Dimensions: 12.5"H 16.5"W 50"L

High polished stainless steel gear rack is designed to make helmets, duffle bags, packs and kits easier to stow. Hang items from the strong tubular bars as well. This 48" durable shelf gives you options for storing gear.

G 2-Helmet Shelf
SP280HSA

Dimensions: 7"H x 28"W x 15"D

Store and protect the things that protect you. Aluminum shelf designed to hold helmets, goggles, shoes, gloves and uniforms. Removable hanging bar aids organization. Mount it high to maximize storage capacity.

H Single Helmet Shelf
SP1HS

Dimensions: 7"H x 14"W x 15"D

A smaller version of the 2-helmet shelf, this aluminum single helmet shelf has the same features as its counterpart, but takes up less space. Removable hanging bar provides additional organizational options.

Tough + Durable + Functional.

A Wheel Chock
SPWM (includes SPWFKW - see B below)
 Black Powder-coated Steel with Wood Surface Mounting System

SPWC (includes SPWFKW - see B below)
 Chromed Steel with Wood Surface Mounting System

SPWC3BT (includes PH2770 - see B below)
 Chromed Steel with Multi-Surface Mounting System

Tubular construction makes this wheel chock the strongest around. Keyhole slots make removal and storage easy. Tapered design stabilizes up to 6.5" tires. Mounting hardware available for multiple surfaces (see B for mounting options).

B Three-point Mount System
 Three different sets available to suit your application needs.

(1) SPWFKW Wood Surface Mounting System
 Includes three screws and togglers ideal for wood mounting.

(2) PH2770 Multi-Surface Mounting System
 Combines wood floor insert with a 2" top disk secured with additional, included screws.

(3) SPWFKM Metal Surface Mounting System
 Includes three screws and togglers ideal for metal mounting.

C 4-Bottle Nitrous Rack
SPNR4
 Dimensions: 13"H x 29.5"W x 7.5"D

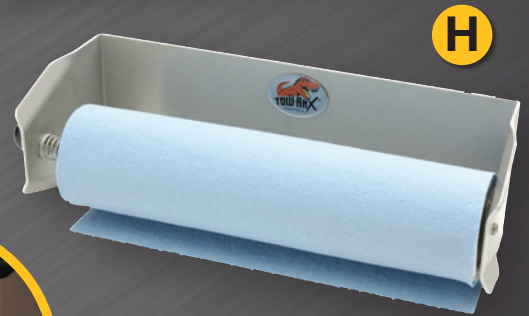

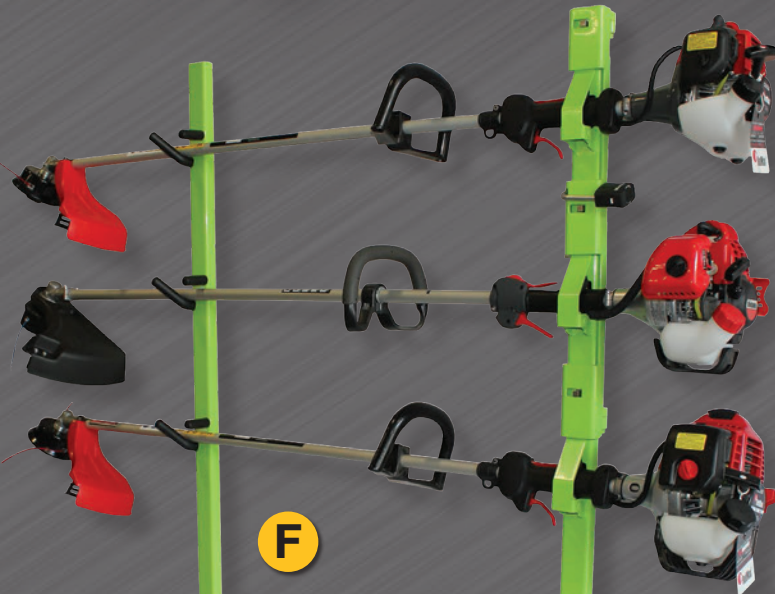

2-Bottle Nitrous Rack
SPNR2
 Dimensions: 13" H x 15"W x 7.5"D

Keep safe by preventing tanks from rolling around on the way to the track with a mill finish aluminum nitrous rack. Also useful for storing acetylene, nitrogen and scuba tanks. This rack can double as a useful storage bin when not used for tanks.

D Battery Box
SP12B / SP12BP
 12" Box Mill Finish / 12" Box Polished Finish

SP14B / SP14BP
 14" Box Mill Finish / 14" Box Polished Finish

Give your battery extra protection and reduce under hood clutter with this rugged aluminum battery box. Featuring a sealed design with external vent tube, box comes complete with mounting rods, mounting rod brackets and stainless steel lock nuts.

**E Tray with Tool Rack
SPOTS**

Dimensions: 6.5"H x 5.5"W x 33.5"D

Machined aluminum finish with precision cut and marked rack for wrenches and drivers with space for cleaning supplies, aerosol and oil cans.

**F Trimmer Storage & Security Rack
SPDDTR3**

Dimensions: 42"W x 53"H x 4"D

Solid steel construction provides stability and theft protection for up to three trimmers. Secure trimmers in place without denting, scratching or rotating during transport. You can secure all three tools with one pad or disc-style lock, yet release a single tool from any of its three positions without releasing the others. The unit's bright green color aims to increase visibility for safety, while the powder coated finish and stainless steel latches help resist the elements.

(1) SPTRWM Trimmer Rack Wall Mount Bracket

Used to mount rack in enclosed trailer or garage wall. Four brackets needed to mount one SPDDTR3 rack.

PSPDDTR3P Replacement Wear Pad Kit (Not Shown)

All pads needed to replace worn, cushioned resting locations on SPDDTR3 to prevent jostling and scratching of trimmers.

**G Tool Cabinet with Tray
SP30ATC**

Dimensions: 30"H x 26"W x 4"D

Secure and organize your tools. Tool cabinet provides storage for wrenches, sockets, screwdrivers, and a wide assortment of every-day use tools. The convenient work tray is ideal for cleaning and repairing small parts. All aluminum. (Use SP25BK for mounting. Predrilled holes)

**H Towel Holder
SPPTH**

Dimensions: 4"H x 13.25"W x 4.5"D

This mill finish aluminum holder keeps your paper towels neat, clean and easily accessible. Unit is equipped with a spring-loaded rod to help prevent unrolling during travel.

A**B****C****D****E**

Tough + Durable + Functional.

A Junior Oil Cabinet
SP180CSA

Dimensions: 17.5"H x 16"W x 5.5"D

Mill finish aluminum junior cabinet designed to hold and organize 2 rows of 6 one-quart bottles of oil. Most aerosol cans and spray bottles fit this cabinet as well.

B Combo Cabinet
SP36CCA

Dimensions: 35"H x 23"W x 9"D

Mill finish aluminum Combo Cabinet provides storage for all your fluids and lubricants. Top shelf designed for aerosol cans, middle shelf holds one-quart containers, and bottom shelf is perfect for gallon containers.

C Cup Holder
SP2CH

Dimensions: 5.25"H x 8"W x 4.25"D

Mill finish aluminum cup holder has two 3" openings for cans/cups.

D Aerosol Can Utility Tray
SP12AT

Dimensions: 4"H x 33.5"W x 4"D

Handy mill finish aluminum tray holds up to 12 standard aerosol cans as well as other items that are easily misplaced. Helps eliminate clutter.

E Air Tool Holder
SPATH

Dimensions: 1.75"H x 17.5"W x 5.5"D

Keep air tools handy with this powder coated steel rack that lets up to nine air tools hang out and stay organized.

F 6-Can Black Aerosol Holder
SP6AT

Dimensions: 5.5"H x 3.25"W x 21.5"D

Avoid piling aerosol cans where the nozzle can accidentally be pressed. Store up to six 3" diameter cans upright and out of the way.

G Single Point Tie Down
SP1DTAB

Dimensions: 1.65"D x .42"H

Round anchor point fits in tight spaces where there may not be enough room for tracks. Two pre-drilled holes make installation fast and easy.

H Single Stud Tie Down
SPSSTD

Load Capacity: 4,000 lbs. vertical
2,000 lbs. horizontal

Spring loaded track fitting for use with any of the Tow-Rax® wall/floor tracks or SP1DTAB.

I Double Stud Tie Down
SPSSTD225

Load Capacity: 6,000 lbs. vertical
2,000 lbs. horizontal

This double-stud mechanism locks into tow track holes for a secure fit in any of the Tow-Rax® wall/floor tracks. (Cannot be used with SP1DTAB.)
