

AXIS® RECHARGEABLE

Micro-USB rechargeable headlamp with dial-activated mode control

Updated for this year the lightweight micro-USB rechargeable Axis Rechargeable features a more intuitive interface, smoother dial operation, and updated aesthetics. An ambidextrous & glove-friendly side-mounted button lets you choose between four different beam settings (red, spot white, flood white & dual) and the surrounding dial provides dimming in all modes. Dial up for fast-paced activities such as trail running or power down for close range tasks. The built in battery power meter lets you know when you're ready to go and the sealed lithium rechargeable battery uses regulated circuitry to provide consistent output. If you're ready to ditch wasteful, single use batteries the Axis Rechargeable is your new go-to partner.

Part# AXRC21-BK/DK

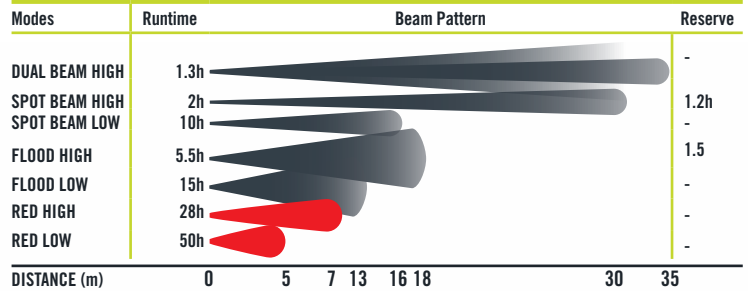

SPECS

POWER	450 Lumens
LAMP	1 Maxbright LED w/ Spot <i>(dimnable)</i> 1 Maxbright LED w/ Flood <i>(dimnable)</i> 2 Red Ultrabright LEDs
RUNTIME	15 Hours
BATTERIES	Lithium Ion Rechargeable <i>(built-in)</i>
WEIGHT	2.9oz / 83g
WATER RESISTANT	IPX4 <i>(splashing water)</i>
