Batteries That Do What They Say They'll Do

After manufacturing in the U.S.* for 110 years, we feel like we've got this producing reliable batteries thing down. That's why we stand behind each of our batteries with a commitment to you - ***THE RAYOVAC® PERFORMANCE GUARANTEE:***

We believe you can have a battery that lasts as long as the competition at a fair price. We rigorously test our RAYOVAC® batteries to ensure the quality and performance meet your expectations. We make batteries that do what they say they'll do, plain and simple. No gimmicks or your money back**.

Committed to Quality

- **Material Testing**

At our Fennimore, WI production facility, we carefully test all the materials that go into our RAYOVAC® Alkaline batteries at each step of the manufacturing process.

- **Performance & Reliability**

Once they're through the production line, we conduct even more performance and reliability tests, at extreme temperatures and high humidity.

- **Battery Testing**

Finally, every single alkaline battery we manufacture is aged and tested prior to shipment, to ensure you receive a top-quality battery every time.

*WITH U.S. AND GLOBAL PARTS

Check out an excellent selection of work lights on our website.
