*Redtree Industries*

The industry leader in marine paint applicators

### Brushes and Rollers Specially Designed for Marine Paints

Redtree manufactures a complete line of the finest tools compatible with all types of marine coatings from topside finishes to antifouling paints. Ongoing research and development combined with our relationships with marine paint manufacturers around the world enable us to deliver superior applicators and performance for every new generation of marine coatings.

### Handcrafted Excellence

Redtree formulates and handcrafts its tools for maximum painting performance. This assures fine finish results with all top coats including enamels, varnishes and urethanes as well as bottom paints.

### Job-Specific Packaging and Merchandising

Redtree takes the guesswork out of selecting the right tool for the right project at hand. We conveniently package brushes and rollers with job-specific information, so making the correct choice every time is easy.

### Worldwide Distribution

Redtree is proud of being the leader in marine-specific applicators that are distributed and used around the world. Professional marine painters and boat builders have long relied on our quality, performance and durability. Same-day shipments make the globe smaller and Redtree closer to our customers.
