

Rothco Workwear Coverall

Rothco's Workwear Coverall features a lightweight yet durable composition so you can perform your professional duties with confidence. This coverall is ideal for mechanics, electricians, engineers, and more. The two-way zipper closure on the coverall is concealed by a button closure for a clean, professional appearance. The pass-through pocket at the waist of the workwear coverall is great for holding large items or just warming your hands. The coverall features two front chest pockets, two slash pockets, two back pockets, and a tool pocket on the right thigh. The lightweight coverall also features a bi-swing back for enhanced mobility.
