**Carry
Case**

Extension Carrying Case

Introducing two lightweight, rugged carrying cases for easy transportation and storage of your 2', 4', and 6' extensions. With a durable foam backing and individual interior sleeves, you can store up to three extensions (with combustors installed) for additional protection when not in use or moving between job sites.

Features:

- Rugged industrial grade 600 denier polyester with .68 mil PVC backing
- Lightweight – Only 5 lbs. shipping weight
- Holds three extensions complete with combustors installed
- Closed cell foam interior for additional stability
- Two durable #8 self-healing coil nylon zippers – Case fully opens for easy access
- Detachable padded shoulder strap (adjustable)
- Made in the USA

Specifications:
