

## Heat Tool Specifications

	<b>Model 998</b>
<b>Feature</b>	
Country Manufactured	Newport, New Hampshire USA
Heat Tool Weight Pounds	2.2 lbs.
Complete Kit Weight Pounds	13 lbs.
Heat Tool Length Inches	14"
Power @ 22 PSI Factory Setting	172,500 BTU
Rated Capacity Factory Setting	51 KW
Recommended Pressure Range	20 – 30 PSI
Temperature – 6" From Flame	1120 °F
Fuel Consumption lbs./hr.	8 lbs. Per Hour
Air Consumption	30 CFM
CO/CO2 Emission %	.015 Co/Co2
Noise Level	88 dbA
Extensions Available	2', 4', 6'
Energy Source	Propane or Natural Gas
Safety Certifications	UL, CUL, CE
