

TERA PUMP

DOUBLE ACTION TRANSFER PUMP

MODEL: TROILTR01

TRANSFER MADE EASY

16 OZ BARREL
CAPACITY

HIGH QUALITY
STEEL BARREL

TRANSFERS
VARIOUS OILS

SPECIFICATIONS

Manual Piston: 2.75"~11"
Pump Body: 12"
Hose Length: 48"
Dipstick Hole Adapter: 40.5"

Compatible
Liquids

Engine Oil
Hydraulic Fluid
Fuel Oil
Mineral Oil
Synthetic & Bio

HANDLES VARIOUS VISCIOUS OILS

The TROILTR01 handles a wide variety of oil viscosity using its plunger piston mechanism to easily draw in and pump out various oils. From engine oil and hydraulic fluid to synthetic and bio oil!

16 OZ BARREL
CAPACITY

HIGH QUALITY
STEEL BARREL

TRANSFERS
VARIOUS OIL

FEATURES

- Barrel Capacity 16 ounces
- Piston Action: The manual piston action allows for easy to use oil transfer without the need for electricity or large equipment
- Steel Body: Quality steel material designed to handle various viscous oils
- Easy Oil Transfer: Transfer oil without the pain & mess of lifting heavy oil containers!
- Dipstick Hole Adapter: Allows for oil extraction from the top of the engine instead of the drain plug underneath the engine
- Application Liquids: Engine Oil, Hydraulic fluid, Fuel Oil, Mineral Oil, Synthetic & Bio Oil
- Backed by a 1-Year Manufacturers Warranty

DOUBLE ACTION OIL TRANSFER

The double action transfer allows for quick oil transfer by simultaneously drawing in and pumping out oil every stroke.

The V type plunger piston handle allows for easy manual operation. No need for electricity or battery power!
