

Third-party verification

Sustainable third-party verification

Objective assurance that products and processes meet or exceed environmental standards

Tork is putting sustainability to work for you with products certified by the below trusted organizations. See the following full list of Tork SKUs that have earned verifications.

Green Seal is an independent non-profit organization dedicated to safeguarding the environment and transforming the marketplace by promoting the manufacture, purchase, and use of environmentally responsible products and services.

- The Green Seal Standard for Sanitary Paper Products, GS-1, establishes environmental, health, and social requirements for products such as bathroom tissue, facial tissue, paper towels, napkins, and placemats for both institutional and retail markets.
- The standard addresses the life cycle issues for sanitary paper products. The life-cycle approach is used to ensure that all significant environmental impacts are considered in the development of a standard, from raw materials extraction through manufacturing to use and disposal.

UL Environment's ECOLOGO® Program helps build and strengthen trust in sustainable products. Certification to one of UL's rigorous, multi-attribute, lifecycle-based standards indicates that a product has undergone third-party auditing and verification to stringent, science-based performance criteria, making it a more sustainable choice.

- UL certifies commercial and household toilet and facial tissue, napkins, and hand and kitchen towel products under its UL-175 Sanitary Paper Standards for an overall reduced environmental impact.
- These standards address recycled content and chlorine-free bleaching processes.
- Standard criteria also includes "downstream" effects such as effluent content, air emissions, solid waste reduction, and energy consumption.
- The holistic approach incorporated in this certification matches our philosophy of environmental stewardship.

Biodegradable Products Institute™ (BPI) compostability testing reviews the materials to ensure they will properly break down in the commercial composting process. One of the largest independent compost certification groups in North America.

- Ensures that our napkins' product lifecycle from development, production, use and disposal remains environmentally responsible.
- All Tork Universal and Advanced napkins, including custom print, are certified compostable. These napkins can be safely disposed of and are compostable in municipal or industrial aerobic facilities.

We also have independent verification from a commercial composting facility that all Tork paper towels will effectively break down in their composting process.

Over the past 20 years, FSC® has earned a reputation as the most rigorous, credible forest certification system. FSC is the only forest certification system governed by an open membership (General Assembly) where interests are equally balanced by economic, social and environmental chambers.

- Certifiers assess forest management using the FSC standards. Certifiers are independent of FSC and the companies they are auditing. This third-party verification is crucial to the integrity of the FSC system.
- Forest Management certification provides assurance that forests are being managed to the highest environmental and social standards.
- Chain-of-Custody certification provides assurance that products bearing the FSC label directly support responsible forest management.
- **FSC Mix and FSC Recycled** certifications are available for most Essity mills in North America. Product certifications are in progress.

Environmental affiliation key

ECOLOGO®
PRODUCT CERTIFIED FOR REDUCED ENVIRONMENTAL IMPACT.
VIEW SPECIFIC ATTRIBUTES EVALUATED:
EL UL-175

Green Seal Paper Products:
These products meet Green Seal™ Standard GS-1 based on chlorine-free processing, energy and water efficiency, and content of 100% recovered material with a minimum of 25% post-consumer material for bath tissue and 50% post-consumer material for napkins and towel.

Green Seal Certified Hand Soaps:
These products meet Green Seal™ Standard GS-41A based on effective performance and protective limits on VOCs and human & environmental toxicity.

Third party verified compostable – Napkins are BPI certified where noted.

FSC® Forest Stewardship Council® (FSC®) certified
FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. FSC Chain-of-Custody certification traces the path of products from forests through the supply chain.
