FaceShield Air

FaceShield Air Assembly Instructions

1 Remove Headband with ComfortPad, Strap and Lens from box.

2 Align holes in the top of Lens with snap posts on the Headband and gently secure by pressing Lens holes onto snap posts. Lens is reversible so you can use either side.

3A Place first adjustment slot of Strap on either right or left side of Headband, place on head, extend Headband and Strap around your head as you would a normal hat strap, and secure loop through adjustment slot. Once comfortable, take note of the adjustment slot number on Strap and leave secured – that's your size!

Cleaning Instructions - ComfortPad

Remove ComfortPad from Headband.

Wash with gentle, mild hand soap.

Dry with a soft cloth.

Align the nibs on ComfortPad and Headband and secure in place.

Cleaning Instructions - Lens

Remove Lens from Headband.

Wipe down with a soft wet wipe.

Let air dry, or gently dry with a soft cloth and secure Lens back onto Headband snap posts.
