GB Translation of the original instructions

Safety information

CE

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Use the soldering iron exclusively for the purpose indicated in the Operating Instructions of soldering and desoldering under the conditions specified here. The manufacturer shall not be liable for damage resulting from misuse of the machine or unauthorised alterations.

WARNING! Fire and explosion hazard! Risk of burns!

Do not touch the hot soldering tips and keep them away from inflammable objects.

- After the soldering process, the soldering tool and the workpiece holder are still hot.
- Risk of burning through liquid solder.
- Keep explosive and flammable objects
- well away from the device.
- Only replace solder tips when cold

Wear appropriate protective clothing to protect yourself against burns. Protect your eyes by wearing eye protectors. Do not use the soldering tool in a damp or wet environment.

Never work on voltage-carrying parts. The soldering tool must be operated only in perfect technical working order. Avoid unintentional operation. Disconnect the soldering tool from the power supply while not in use.

Maintenance and repair

Follow the instructions on soldering tip replacement. Use original replacement parts only. Always have your soldering tool repaired by a qualified electrician.

Disposal

Do not dispose of electric tools together with househeld together with household waste material! In observance of European

Directive 2012/19/EU on waste electrical and electronic equipment and its implementation in accordance with national law, electric tools that have reached the end of their life must be collected separately and returned to an environmentally compatible recycling facility.

Batteries must be disposed of according to regulations so that they can be recycled. Consumers are required by law to take rechargeable batteries and regular batteries to a suitable collection site. Do not dispose of them with domestic waste.
